2017 Detachment Profile:

Fort Vermilion Provincial Detachment

March 27, 2018

Fort Vermilion Provincial Detachment

The information in this report is based on Line 1 UCR scoring only. This differs from the standard monthly reports that count all lines of scoring. Counting all lines of scoring provides a more complete picture of the criminal activity in a given jurisdiction. The move to the Line 1 UCR method to calculate metrics is due to inconsistencies in PROS scoring among several Detachments.

| Enhanced | 2 |
| SRO/CPVS/PDS: | 0 |
| PS | 3 |

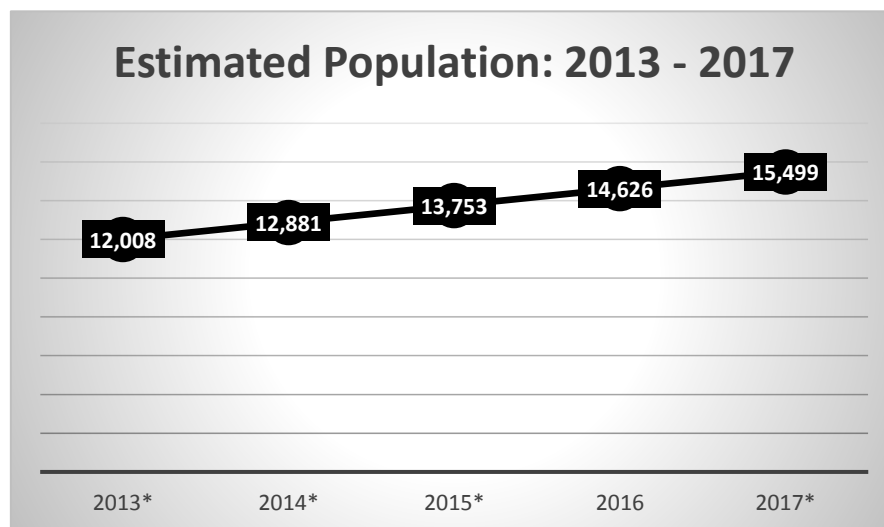

2017 Total RM's (all positions): 16

RM's Used for Metrics*: 14

*RM counts used to calculate CC/RM and PPR do not include FIS, PDS, or Enhanced Positions. GIS positions are only included if the position is specific to the Detachment. The CTA/FNP positions are being included for the Fort Vermilion Provincial Detachment, due to the fact these positions replaced the North Peace Tribal Police Service's members.

Detachment Area Population

The 2016 Census population for the Fort Vermilion Provincial Detachment was 14,626. There was an estimated 29.1% increase in population between 2013 and 2017.

*The Detachment area population is estimated from the 2011 and 2016 Census. The difference between the two Census calculations is averaged over the 5 year time period using a simple linear slope.

Fort Vermilion Provincial Detachment

Detachment Metrics

| Fort Vermilion Provincial Detachment 2017 Metrics | | | | | |
|---|-------|-------|-------|-------|-------|
| Metric | 2013 | 2014 | 2015 | 2016 | 2017 |
| CC/RM | 45.7 | 76.2 | 99.4 | 58.2 | 62.0 |
| CSI | 34.3 | 58.3 | 82.7 | 93.5 | n/a |
| CC/1000 | 34.2 | 53.3 | 101.1 | 55.7 | 56.0 |
| PPR | 1,334 | 1,431 | 982 | 1,045 | 1,107 |

Criminal Code per Regular Member (CC/RM):

Criminal code incidents per Regular Member refers to the proportion of criminal code incidents to the number of police officers.

Crime Severity Index (CSI)

The Crime Severity Index tracks changes in the severity of police-reported crime by accounting for both the amount of crime reported by police in a given jurisdiction and the relative seriousness of these crimes. It tells us not only how much crime is coming to the attention of police, but also about the seriousness of that crime.

By design, the specific Crime Severity Index value in a given jurisdiction depends on its mix of crimes and their relative seriousness. If a jurisdiction has a high proportion of less serious, and hence lower-weighted, offences, it will have a lower Index value. Conversely, a jurisdiction with a high proportion of more serious crimes will have a higher Index value. The base line for measurement of the CSI is 100.

Detachments with a population less 5,000 should compare CSI rates with caution. A few serious files could cause large increases the overall CSI. The 2017 CSI will be published in July or August, 2018.

Criminal Code Cases per 1,000 (CC/1000):

The traditional crime rate is expressed as a rate per 1,000 population. The crime rate is calculated by summing all Criminal Code incidents and dividing by the population.

Police to Population Ratio (PPR):

The police to population ratio (PPR) quantifies the relationship between the number of police officers and the total population served.

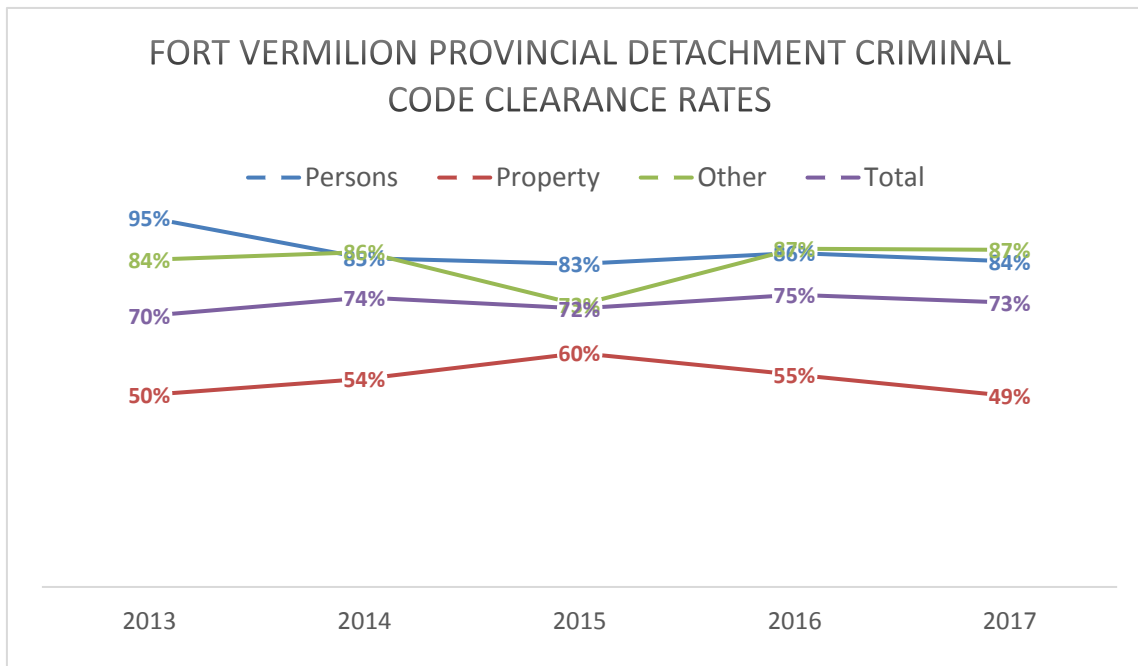

Fort Vermilion Provincial Detachment

Clearance Rates

When a police investigation leads to the identification of a suspect against whom a charge could be laid, then that incident can be cleared. Criminal incidents can either be “cleared by charge” or “cleared otherwise”. When an information is laid against the suspect (i.e., the person is formally charged), then from a statistical point of view the related actual incident can be cleared by charge. In cases where the police do not lay an information, even though they have identified a suspect and have enough evidence to support the laying of such, the incident is cleared otherwise.

| CC Category | 2013 | 2014 | 2015 | 2016 | 2017 |
|--------------|------------|------------|------------|------------|------------|
| Persons | 95% | 85% | 83% | 86% | 84% |
| Property | 50% | 54% | 60% | 55% | 49% |
| Other | 84% | 86% | 73% | 87% | 87% |
| Total | 70% | 74% | 72% | 75% | 73% |

Fort Vermilion Provincial Detachment

Adults Charged

| Adults Charged in Criminal Code Offences | | | | | | |
|--|-------|-----------|------------|------------|------------|------------|
| CC Category | Trend | 2013 | 2014 | 2015 | 2016 | 2017 |
| Persons | | 27 | 82 | 168 | 112 | 89 |
| Property | | 18 | 22 | 37 | 35 | 27 |
| Other | | 21 | 102 | 153 | 110 | 137 |
| Total | | 66 | 206 | 358 | 257 | 253 |

There were 253 people charged with Criminal Code Offences in 2017. This represents a 1.6% decrease from 2016. In 2017 adult males accounted for 56.1% of those charged.

Youth Charged

| Youths Charged and Not Charged in Criminal Code Offences | | | | | | |
|--|-------|-----------|-----------|------------|-----------|-----------|
| CC Category | Trend | 2013 | 2014 | 2015 | 2016 | 2017 |

Fort Vermilion Provincial Detachment

January - December, 2017

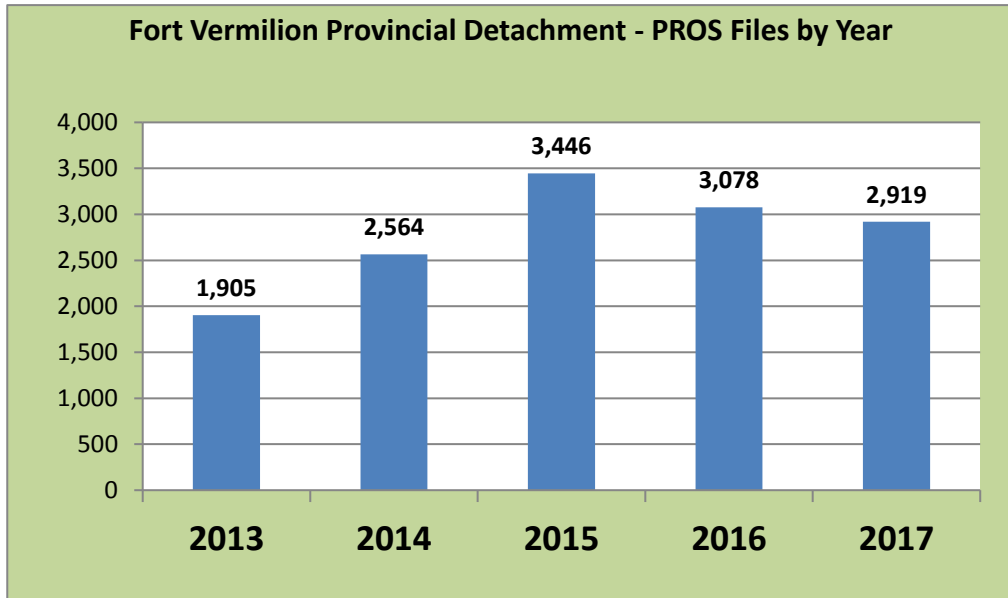

Date: February 5, 2018

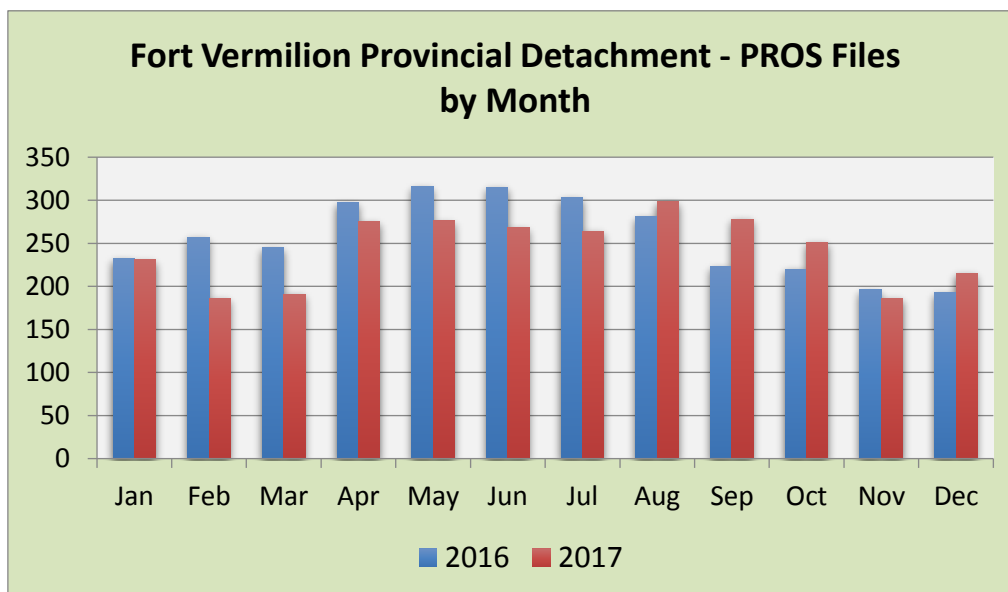

Fort Vermilion Provincial Detachment

File Counts

Based on PROS data, the Fort Vermilion Provincial Detachment generated 2,919 files between January - December, 2017. This includes calls for service from the public as well as self-generated and proactive files. There was a decrease of 5.2% in 2017 when compared to 2016.

In 2017 August had the most files generated (2016: May) , while February had the least. (2016: December).

Fort Vermilion Provincial Detachment

Generated file times:

The following chart illustrates when all PROS files were **generated**. The chart ranges from least calls for service/files generated (green) to the highest number of calls for service/files generated (red) and is broken down by day (columns) and each hour of the day (rows).

Sunday had the most files generated, while Tuesday had the least.

Public Calls for Service (CHDS Files):

The following chart shows calls for service for 2017 broken down by day and hour of the day. There were 1,018 self-generated, front counter and proactive files created in 2017 accounting for 34.9% of all files generated. There were 1,901 calls for service from the public through the OCC in 2017.

When just OCC calls for service are considered, Sunday had the most calls for service while Monday had the least.

2017 Detachment Profile:

High Level Provincial Detachment

March 23, 2018

High Level Provincial Detachment

The information in this report is based on Line 1 UCR scoring only. This differs from the standard monthly reports that count all lines of scoring. Counting all lines of scoring provides a more complete picture of the criminal activity in a given jurisdiction. The move to the Line 1 UCR method to calculate metrics is due to inconsistencies in PROS scoring among several Detachments.

RM's Used for Metrics*: 16

*RM counts used to calculate CC/RM and PPR do not include FIS, PDS, Enhanced Positions, or CTA/FNP. GIS positions are only included if the position is specific to the Detachment.

Detachment Area Population

The 2016 Census population for the High Level Provincial Detachment was 5,965. There was an estimated 1.4% decrease in population between 2013 and 2017.

*The Detachment area population is estimated from the 2011 and 2016 Census. The difference between the two Census calculations is averaged over the 5 year time period using a simple linear slope.

High Level Provincial Detachment

Detachment Metrics

| High Level Provincial Detachment 2017 Metrics | | | | | |
|---|-------|-------|-------|-------|-------|
| Metric | 2013 | 2014 | 2015 | 2016 | 2017 |
| CC/RM | 130.2 | 111.0 | 161.4 | 143.1 | 151.5 |

| CC/1000 | 345.5 | 314.1 | 431.3 | 383.9 | 407.8 |
| PPR | 377 | 353 | 374 | 373 | 371 |

Criminal Code per Regular Member (CC/RM):

Criminal code incidents per Regular Member refers to the proportion of criminal code incidents to the number of police officers.

Crime Severity Index (CSI)

The Crime Severity Index tracks changes in the severity of police-reported crime by accounting for both the amount of crime reported by police in a given jurisdiction and the relative seriousness of these crimes. It tells us not only how much crime is coming to the attention of police, but also about the seriousness of that crime.

By design, the specific Crime Severity Index value in a given jurisdiction depends on its mix of crimes and their relative seriousness. If a jurisdiction has a high proportion of less serious, and hence lower-weighted, offences, it will have a lower Index value. Conversely, a jurisdiction with a high proportion of more serious crimes will have a higher Index value. The base line for measurement of the CSI is 100.

Detachments with a population less 5,000 should compare CSI rates with caution. A few serious files could cause large increases the overall CSI. The 2017 CSI will be published in July or August, 2018.

Criminal Code Cases per 1,000 (CC/1000):

The traditional crime rate is expressed as a rate per 1,000 population. The crime rate is calculated by summing all Criminal Code incidents and dividing by the population.

Police to Population Ratio (PPR):

The police to population ratio (PPR) quantifies the relationship between the number of police officers and the total population served.

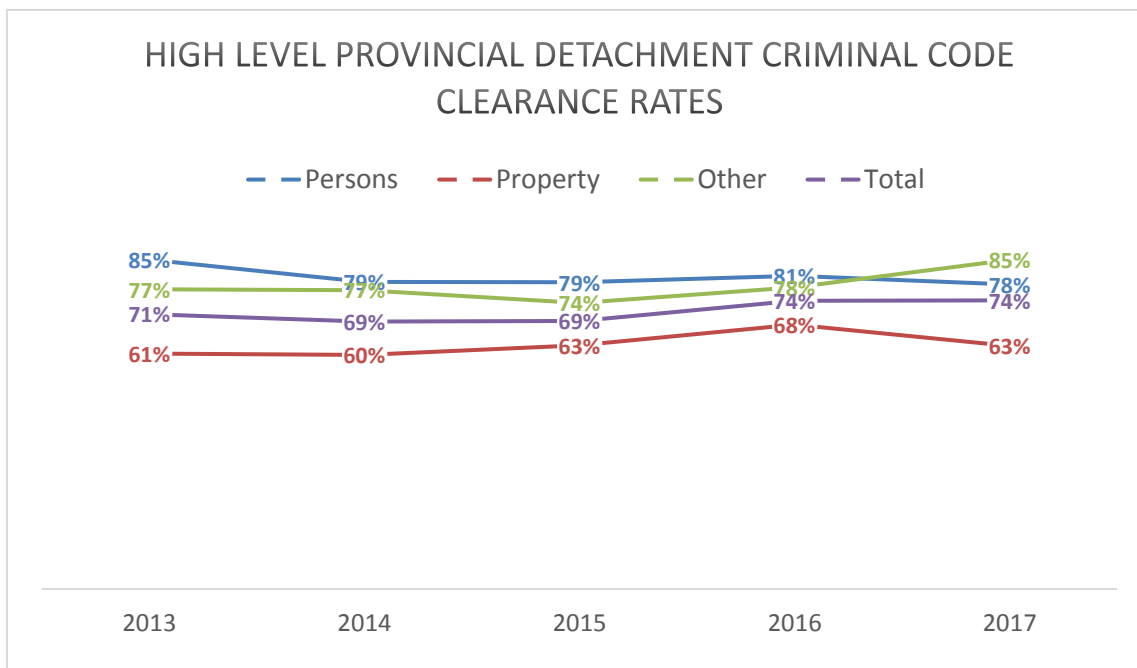

High Level Provincial Detachment

Clearance Rates

When a police investigation leads to the identification of a suspect against whom a charge could be laid, then that incident can be cleared. Criminal incidents can either be “cleared by charge” or “cleared otherwise”. When an information is laid against the suspect (i.e., the person is formally charged), then from a statistical point of view the related actual incident can be cleared by charge. In cases where the police do not lay an information, even though they have identified a suspect and have enough evidence to support the laying of such, the incident is cleared otherwise.

| CC Category | 2013 | 2014 | 2015 | 2016 | 2017 |
|--------------|------------|------------|------------|------------|------------|
| Persons | 85% | 79% | 79% | 81% | 78% |
| Property | 61% | 60% | 63% | 68% | 63% |
| Other | 77% | 77% | 74% | 78% | 85% |
| Total | 71% | 69% | 69% | 74% | 74% |

January - December, 2017

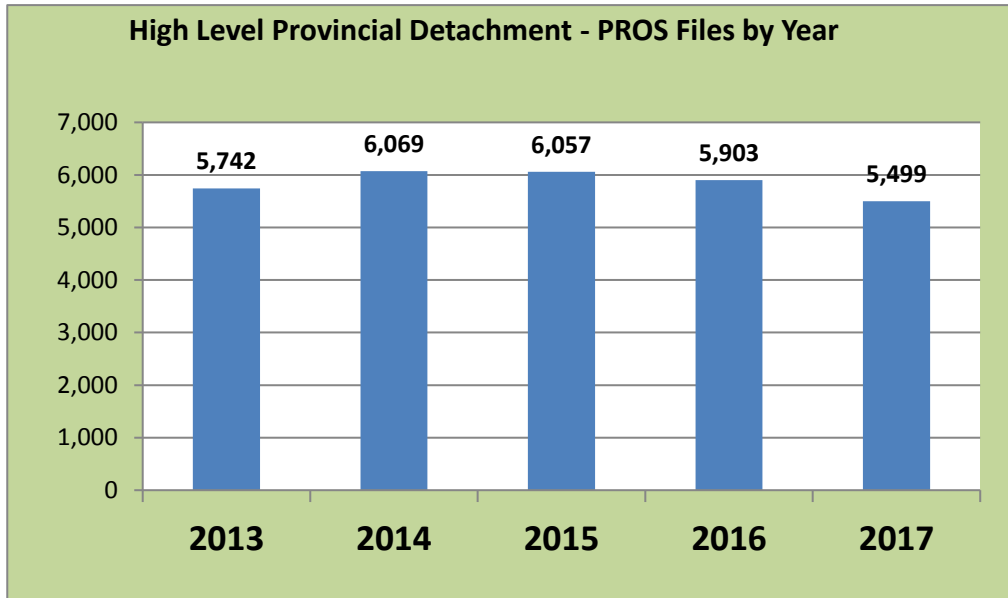

Date: February 5, 2018

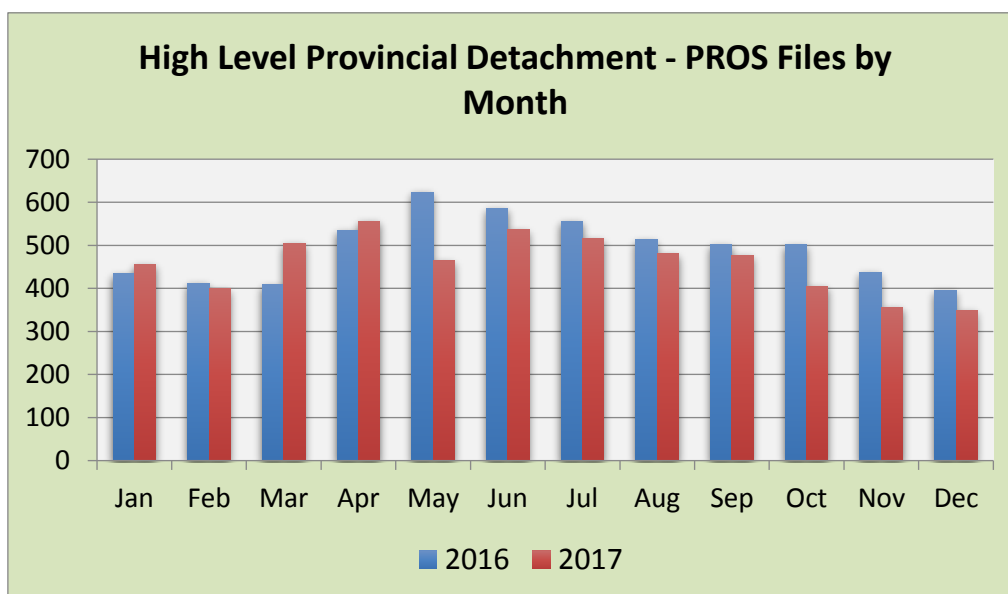

High Level Provincial Detachment

File Counts

Based on PROS data, the High Level Provincial Detachment generated 5,499 files between January - December, 2017. This includes calls for service from the public as well as self-generated and proactive files. There was a decrease of 6.8% in 2017 when compared to 2016.

In 2017 April had the most files generated (2016: May), while December had the least. (2016: December).

High Level Provincial Detachment

Generated file times:

The following chart illustrates when all PROS files were **generated**. The chart ranges from least calls for service/files generated (green) to the highest number of calls for service/files generated (red) and is broken down by day (columns) and each hour of the day (rows).

Saturday had the most files generated, while Monday had the least.

2017 Detachment Profile:

Chateh Provincial Detachment

March 23, 2018

Chateh Provincial Detachment

The information in this report is based on Line 1 UCR scoring only. This differs from the standard monthly reports that count all lines of scoring. Counting all lines of scoring provides a more complete picture of the criminal activity in a given jurisdiction. The move to the Line 1 UCR method to calculate metrics is due to inconsistencies in PROS scoring among several Detachments.

2017 Total RM's (all positions): 10

RM's Used for Metrics*: 10

*RM counts used to calculate CC/RM and PPR do not include FIS, PDS, Enhanced Positions, or CTA/FNP. GIS positions are only included if the position is specific to the Detachment.

Detachment Area Population

The 2016 Census population for the Chateh Provincial Detachment was 1,678. There was an estimated 6.4% decrease in population between 2013 and 2017.

*The Detachment area population is estimated from the 2011 and 2016 Census. The difference between the two Census calculations is averaged over the 5 year time period using a simple linear slope.

Chateh Provincial Detachment

Detachment Metrics

| Chateh Provincial Detachment 2017 Metrics | | | | | |
|---|-------|-------|-------|-------|-------|
| Metric | 2013 | 2014 | 2015 | 2016 | 2017 |
| CC/RM | 194.8 | 134.7 | 121.8 | 125.9 | 128.8 |
| CSI | 533.6 | 599.8 | 421.5 | 414.5 | n/a |
| CC/1000 | 994.6 | 776.6 | 713.9 | 750.3 | 780.7 |
| PPR | 196 | 173 | 171 | 168 | 165 |

Criminal Code per Regular Member (CC/RM):

Criminal code incidents per Regular Member refers to the proportion of criminal code incidents to the number of police officers.

Crime Severity Index (CSI)

The Crime Severity Index tracks changes in the severity of police-reported crime by accounting for both the amount of crime reported by police in a given jurisdiction and the relative seriousness of these crimes. It tells us not only how much crime is coming to the attention of police, but also about the seriousness of that crime.

By design, the specific Crime Severity Index value in a given jurisdiction depends on its mix of crimes and their relative seriousness. If a jurisdiction has a high proportion of less serious, and hence lower-weighted, offences, it will have a lower Index value. Conversely, a jurisdiction with a high proportion of more serious crimes will have a higher Index value. The base line for measurement of the CSI is 100.

Detachments with a population less 5,000 should compare CSI rates with caution. A few serious files could cause large increases the overall CSI. The 2017 CSI will be published in July or August, 2018.

Criminal Code Cases per 1,000 (CC/1000):

The traditional crime rate is expressed as a rate per 1,000 population. The crime rate is calculated by summing all Criminal Code incidents and dividing by the population.

Police to Population Ratio (PPR):

The police to population ratio (PPR) quantifies the relationship between the number of police officers and the total population served.

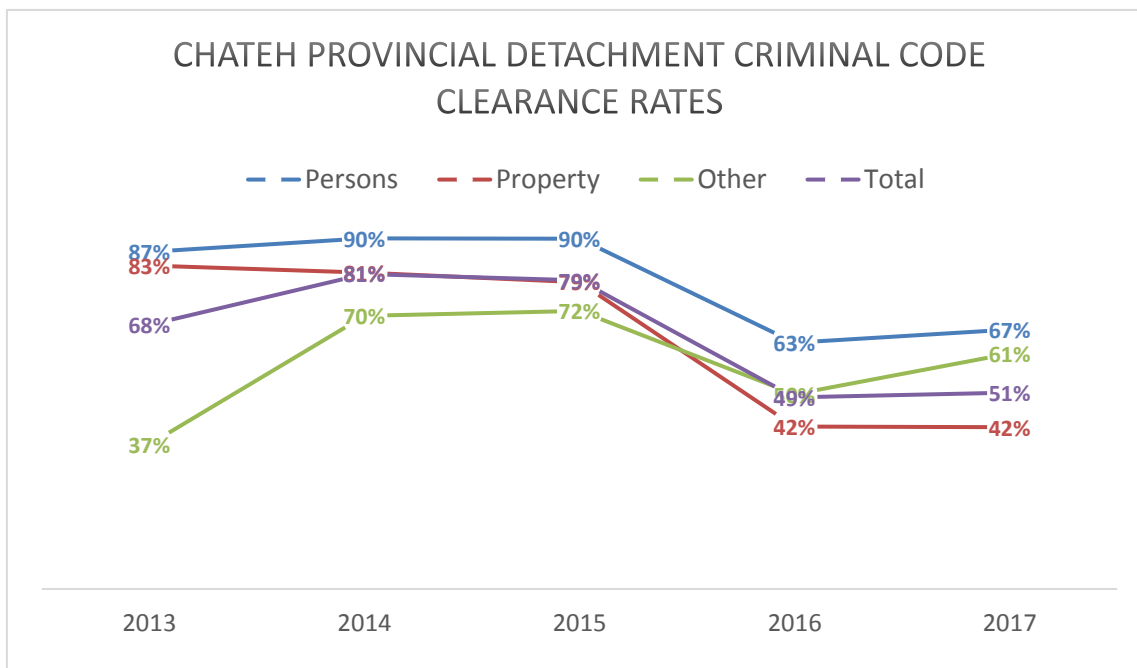

Chateh Provincial Detachment

Clearance Rates

When a police investigation leads to the identification of a suspect against whom a charge could be laid, then that incident can be cleared. Criminal incidents can either be “cleared by charge” or “cleared otherwise”. When an information is laid against the suspect (i.e., the person is formally charged), then from a statistical point of view the related actual incident can be cleared by charge. In cases where the police do not lay an information, even though they have identified a suspect and have enough evidence to support the laying of such, the incident is cleared otherwise.

| CC Category | 2013 | 2014 | 2015 | 2016 | 2017 |
|--------------|------------|------------|------------|------------|------------|
| Persons | 87% | 90% | 90% | 63% | 67% |
| Property | 83% | 81% | 79% | 42% | 42% |
| Other | 37% | 70% | 72% | 50% | 61% |
| Total | 68% | 81% | 79% | 49% | 51% |

Chateh Provincial Detachment

Adults Charged

| Adults Charged in Criminal Code Offences | | | | | | |
|--|-------|------------|------------|------------|------------|------------|
| CC Category | Trend | 2013 | 2014 | 2015 | 2016 | 2017 |
| Persons | | 88 | 134 | 140 | 127 | 95 |
| Property | | 21 | 15 | 25 | 13 | 12 |
| Other | | 76 | 60 | 57 | 89 | 102 |
| Total | | 185 | 209 | 222 | 229 | 209 |

There were 209 people charged with Criminal Code Offences in 2017. This represents a 8.7% decrease from 2016. In 2017 adult males accounted for 70.4% of those charged.

Youth Charged

| Youths Charged and Not Charged in Criminal Code Offences | | | | | | |
|--|-------|------------|-----------|-----------|-----------|-----------|
| CC Category | Trend | 2013 | 2014 | 2015 | 2016 | 2017 |
