Re: Grading Contract

To: The Board of the M.D. of Mackenzie #23

The reason for my attendance at this meeting today is to discuss the reasons for rejecting my bid for the Maintenance of Gravel Roads.

My understanding is that my bid was rejected because the M.D. has decided to re-open the contract for bids on a per kilometer basis. I feel that this is no reason for canceling the contracts completely. I would suggest that the new contract be implemented on a **trial basis, in small areas**, with the existing contract still in place.

I look forward to your response to this request. I am willing to have further discussions regarding this contract.

Sincerely,

Jake Neufeld

We would like to know why we were not given this new contract that we bid on?

If you don't want to give us this contract, then why didn't you grant us the one year extension on the contract that we had?

When we took over the contract from A + N Trucking, we were told that if the contract was not defaulted, we would get the one year extension on the contract. As far as we know the contract has not been defaulted. We have heard no complaints about Aron's work, only compliments. Dennis Litke himself, at one point in time, told Aron that "I have heard a lot of good things about you".

When we bought our grader, we were under the impression that we had a 2 1/2 year contract and that we would have the grader almost paid for at the end of the contract. Now that we were not granted the one year extension, we sit here with a grader half paid for and possibly no job within the next month or so. Don't get the impression

That we are trying to get rich at
the job. We are just trying to
make a living. (most enjoy the
work), and this is one job that
he can do without having to have
an education.

REPORT TO M.D. COUNCIL: May 29, 1997

**RE: Deh Cho Funding Request and Update on Activities
Internet Web Site for the M.D.**

**PRESENTED BY: Linda Wallace
Mackenzie Economic Development Corporation**

DEH CHO — The Mackenzie Connection

As in the past, the Deh Cho Committee has requested a financial contribution from the M.D. to support the ongoing efforts of the group. The request this year is the same as last — \$850.

This report is to bring Council up-to-date on the ongoing initiatives, such as the tabloid and passport program, and to highlight plans for the next year.

Tabloid and Passport: This version of the tabloid is being disbursed for the second year, as we do enough in one run to last for 2 years. This way the tabloid is updated and refreshed on a regular basis. The current version was edited and revised by MEDC, and we are likely to be heading this up from now on. As you know, these tabloids are distributed from Visitor Information Centres throughout the route, as well as from centres at key points elsewhere in Alberta, BC, the Yukon and Alaska.

The passports are distributed at entry points to the route and within the route, and serve as a source of data regarding who is travelling the route and for what purposes. The passport is stamped at various stops and a bumper sticker is offered as a souvenir, once three stamps have been received.

New Initiatives: This year's main project will be the placing of new Deh Cho signs. These are large round signs that encompass the Deh Cho area in all three jurisdictions — BC, Alberta, and the NWT. After reviewing the research done by the Mackenzie Municipal Services Agency regarding various possible locations for the sign, it was agreed at the spring meeting that the next location should be at Dawson Creek, BC. Currently there is a Deh Cho route sign at Valleyview, and another sign (more specific to the Hay River to Fort Smith area) on the Territories side of the border. The intent is to add signs each year, as funds allow, to ensure that all entry points are covered. Other suggested sites for signs include Grande Prairie, Hinton, somewhere along Highway 40, and at the Liard Junction on the Alaska Highway.

Other Awareness Promotions: Other projects currently under exploration include place mats, cotton bags as additional giveaway options, and creation of a web site. While these soft-sell awareness promotions and efforts will continue as long as the group can function, it is also our intention to continue the search for more serious levels of funding to support a move to a higher level of marketing effort. A proposal was submitted last year to the Tourism Alliance for Western and Northern Canada seeking dollars to hire full-time staff to expand on what this group has done, and even to move into tourism product packaging and development. We were turned down because we did not have enough private sector dollars on the table.

(Currently all partners are either municipal, tourism organizations, or organizations such as MEDC.) The group intends to keep trying through other avenues to bring this to fruition, but there is no expectation of immediate success.

In closing, the MD's contribution is an important factor in the Alberta portion of the funding. The Northwest Territories continues to provide the larger portion of required funds.

INTERNET WEB SITE

As a continuing part of the Community Access Project (where public Internet access sites were established in High Level, Fort Vermilion, La Crete, Fort Vermilion and Zama) we have the opportunity to have a person on staff for 3 months. In discussion with some of the staff at the various CAP sites, it was decided that we would like to use this person to develop an M.D. web site with specific community web sites beneath it.

Our purpose in bringing this forward to you today is to determine whether you are interested in developing a web site specifically for the MD itself and, if so, if we have permission to go ahead with its development, utilizing this staff. It is expected that, in the short time available, this person will be able to develop a basic site for the MD and community sites for Fort Vermilion, Zama, and La Crete. Sites would include basic profile information on each community, as well as lifestyle information. These could be further developed in the future.

A basic web site for the Town of High Level was created under this program last summer, and MEDC has been contracted by them to flesh it out from there and customize to the Town's specifications. What we hope to see resulting from these efforts is a regional site where Internet visitors will be provided with a menu of choices: MD, Town of Rainbow Lake, Town of High Level, La Crete, Fort Vermilion, Zama and, eventually Paddle Prairie and the First Nations communities.
