PRIVATE EQUIPMENT REGISTRATION FORM

Procedure

- 1 The use of hired equipment is a pre-qualification of vendors and will be used in instances and to the limits as outlines in the "Hiring of Private Equipment" Policy.
- **2** Each year the County will advise once, in each of our local newspapers, and on the County website, calling for contractors to submit their Private Equipment list to the County and also to inform the public of our equipment hiring procedures. Contractors may notify in writing at any time if they want to add or delete equipment from the list, in accordance with this policy.
- **3** Companies or owners will be required to provide proof of valid WBC coverage, appropriate insurance (\$2,000,000.00 minimum), valid safety inspection where applicable and any other information the County deems necessary, prior to start of work. The information will be reviewed prior to payment being made to ensure it remains valid.
- 4 Companies or owners will not be considered who are delinquetly indebted to the County more than \$50 for taxes, utility accounts or any other accounts receiveable; and/or are involved in any current litigation with the County.
- 5 Supervisory staff are authorized to hire equipment as long as it is within their allowable signing authority limit. Anything above their signing authority limit will need approval from the appropriate Director and/or CAO.
- 6 Supervisory staff may apply the following considerations when hiring equipment;
 - Past work history with the County along with the cooperative record of the contractor making equipment available to the County in times of need or difficult situations;
 - the experience of the operator, the suitability, productivity and condition of the equipment;
 - the location of the equipment in relation to the work site;
 - charge out rates/price

Each supervisior will report to their respective Directors on a regular basis regarding the hired equipment he has working. These reports (and others such as financials) will be used by the respective Directors to access the degree of which work is being distributed and to direct supervisory staff on hiring equipment.

7 Supervisors are expected to provide justification for their choices when hiring, and to provide an accurate tracking of hours and costs of each project.
