**Municipal Development Plan Amendment Process:**

The Municipal Development Plan (MDP) is a statutory plan which establishes land use and development objectives and policies for the entire County. The MDP represents an overall vision for future land use in the County. Through our policies it guides where and how our communities will grow.

In terms of the planning document hierarchy, the MDP is the framework for all other planning documents, such as the Land Use Bylaw and Area Structure Plans. All land development plans must conform to the policies and strategies of the MDP. In some cases, a proposed development or land use may be in conflict with the MDP and as such, an application may be submitted to amend the existing MDP.

Where an amendment is initiated by the general public, the County requires the submission of such background information as is considered necessary to support the amendment prior to commencement of the bylaw amendment process. The application is circulated internally and to external agencies for comments and to adjacent landowners who could be affected by the change. County administration reviews the application and a report is prepared and brought forward to Council recommending support or non-support of the application.

Prior to third reading of the bylaw, Council must hold a public hearing to provide an opportunity for those affected by the amendment to comment. Council may also require the applicant to hold an open house regarding the proposed changes.

The Planning Department requires that the applicant detail all proposed changes to the MDP, including text, maps, charts and/or any other requested changes. These proposed changes must be submitted to the Planning Department in both hard copy and electronic formats, and the Planning Department will not process the application until it is satisfied that the submitted information adequately addresses the proposed changes.

## ABANDONED WELLS

Lot	Block	Plan	Subdivision	
NW / NE / SW / SE	Section	Township	Range	WM

After reclamation of a well has been completed and approved by Alberta Environment and Sustainable Resource Development, there is nothing visible on the surface or on title to indicate the presence of an abandoned well. Proper setback distances and access to the abandoned well site needs to be maintained if a leak should occur. There is also a risk to excavation and construction if abandoned wells are not properly located.

Effective **November 1, 2012**, new subdivision applications, except for lot line adjustments, must identify the presence or absence of abandoned wells. Documentation from ERCB (Energy Resource Conservation Board) Web Viewer must be attached to this application. ERCB Web Viewer can be accessed online at [www.ercb.ca](http://www.ercb.ca) under Abandoned Well Map.

In accordance with Provincial Alberta Regulation 23/2002 Subdivision and Development Regulation, the Applicant/Registered Owner has attached documentation from ERCB Web Viewer of the titled area that has indicated the following:

{    }	According to ERCB Web Viewer, there are no abandoned well sites within the titled area.

{    }	According to ERCB Web Viewer, there are abandoned well site(s) within the titled area. I have attached a tentative subdivision plan from an Alberta Land Surveyor showing the location of the well(s) and setbacks established by ERCB Directive 079.
