UNAPPROVED

Mackenzie County

REQUEST FOR DECISION

Meeting:	Regular Council Meeting
Meeting Date:	July 14, 2021
Presented By:	Byron Peters, Deputy Chief Administrative Officer
Title:	Tender- La Crete North Sanitary Trunk Sewer Engineering

BACKGROUND / PROPOSAL:

The La Crete North Sanitary Trunk Sewer Design Report was developed by Helix Engineering Inc. with the report approved by Council at the November 25th Regular Council meeting.

Phase 1 of the Design Report provides a preliminary engineering design that includes a sanitary sewer-servicing concept which would service the following sanitary sub-basins within the La Crete area:

- Section 16-106-15-W5M
- West half of 15-106-15-W5M

The Phase 1 scope of work includes roughly 2885 m of gravity mains ranging from 450 mm to 675 mm diameter, and a depth from 3.6 m to 9.8 m. There will also be a new lift station required near the lagoon, along with a short force main. Phase 1 is estimated to cost around \$6.5 million.

Development is dependent on this servicing for the North side of La Crete, and several multi-lot subdivision applications have already been approved. It is anticipated that 80+ lots will be developed prior to this sanitary trunk line being completed.

On June 23, 2021 Council made the following motion authorizing administration to issue an RFP for engineering services required to complete the design and construction of the La Crete North Sanitary Trunk Sewer.

Author: S Gibson **Reviewed by:** B Peters **CAO:** _____

MOTION 21-06-538

MOVED by Councillor Braun

That the deadline for proposals be set for July 9, 2021 and Administration be authorized to open and score each proposal for presentation at the July 14, 2021 Council meeting.

CARRIED

A Request for Proposals was issued the morning of June 25, 2021 with a closing date of 4:30 pm on July 9, 2021. The following matrix is to be used for evaluating the qualifying proposals.

Evaluation Criteria	Mark (%)	Points Available	Subtotal
Knowledge of the Mackenzie County issues, constraints, and community adaptations as demonstrated by local experience.		30	
Availability and flexibility to perform services as described in scope of work.		30	
Experience and qualifications of firm and project team members.		30	
Fees		10	
Total points available		100	

OPTIONS & BENEFITS:

Administration will provide a scored summary of the proposals received with a recommendation to award the project to the successful proponent for the Request for Proposals for the La Crete North Sanitary Trunk Sewer, at the July 14, 2021 Council meeting.

COSTS & SOURCE OF FUNDING:

At the May 26, 2021 council meeting, council approved a budget of \$235,000 in order to complete the detailed design and tendering. It is anticipated that the funding to construct the infrastructure will be approved in the 2022 budget.

The costs for engineering are being incorporated into the offsite levy fees for the benefitting area.

Author: S Gibson **Reviewed by:** B Peters **CAO:** _____

SUSTAINABILITY PLAN:

Goal C1

The capacity of infrastructure in County hamlets keeps pace with their growth and is planned in such a way that ensures their sustainability.

Goal E 26.1

Infrastructure is adequate and there are plans in place to manage additional growth.

COMMUNICATION / PUBLIC PARTICIPATION:

Mackenzie County

REQUEST FOR DECISION

Meeting:	Regular Council Meeting
Meeting Date:	July 14, 2021
Presented By:	Caitlin Smith, Manager of Planning & Development
Title:	PUBLIC HEARING Bylaw 1227-21 Land Use Bylaw Amendment to Rezone Plan 072 5380, Block 3, Lot 1 from Fort Vermilion Highway Commercial “FV-HC” & Fort Vermilion Light Industrial “FV-LI” to Fort Vermilion Heavy Industrial “FV-HI”

BACKGROUND / PROPOSAL:

Mackenzie County has received a request to rezone Plan 072 5380, Block 3, Lot 1 in the Hamlet of Fort Vermilion from Fort Vermilion Highway Commercial “FV-HC” and Fort Vermilion Light Industrial “FV-LI” to Fort Vermilion Heavy Industrial “FV-HI” to accommodate a truck wash and fuel station.

The subject parcel is adjacent to Highway 88 and located near an existing service station. The developer plans to construct a truck wash in the near future with a larger service station to follow with later development phases.

Administration will need to determine the servicing feasibility of the area.

The proposed bylaw was presented to the Municipal Planning Commission on May 27, 2021 where the following motion was made:

MPC 21-05-076 *MOVED* by *Jacquie Bateman*

That the Municipal Planning Commission recommend to Council to approve Bylaw 12xx-21 being a Land Use Bylaw Amendment to rezone Plan 072 5380, Block 3, Lot 1 from Fort Vermilion Highway Commercial “FV-HC” & Fort Vermilion Light Industrial “FV-LI” to Fort Vermilion Heavy Industrial “FV-HI” to accommodate a service station – major, subject to public hearing input.

CARRIED

Author: N Friesen **Reviewed by:** C Smith **CAO:** _____

Bylaw 1227-21 was present to Council on June 8, 2021 where the following motion was made:

MOTION 21-06-494 *MOVED* by Councillor E. Peters

That first reading be given to Bylaw 1227-21 being a Land Use Bylaw Amendment to rezone Plan 072 5380, Block 3, Lot 1 from Fort Vermilion Highway Commercial "FV-HC" & Fort Vermilion Light Industrial "FV-LI" to Fort Vermilion Heavy Industrial "FV-HI" to accommodate a service station – major, subject to public hearing input.

CARRIED

OPTIONS & BENEFITS:

Options are to pass, defeat, or table second and third reading of the bylaw.

COSTS & SOURCE OF FUNDING:

Costs consisted of advertising the public hearing and adjacent landowner letters which were borne by the applicant.

SUSTAINABILITY PLAN:

Goal E26 That Mackenzie County is prepared with infrastructure and services for a continually growing population.

COMMUNICATION/PUBLIC PARTICIPATION:

Public Hearing is required prior to second and third reading.

POLICY REFERENCES:

Not applicable at this time.

RECOMMENDED ACTION:

Simple Majority Requires 2/3 Requires Unanimous

Author: N Friesen **Reviewed by:** C Smith **CAO:** _____

That second reading be given to Bylaw 1227-21 being a Land Use Bylaw Amendment to rezone Plan 072 5380, Block 3, Lot 1 from Fort Vermilion Highway Commercial “FV-HC” & Fort Vermilion Light Industrial “FV-LI” to Fort Vermilion Heavy Industrial “FV-HI” to accommodate a service station – major.

Simple Majority Requires 2/3 Requires Unanimous

That third reading be given to Bylaw 1227-21 being a Land Use Bylaw Amendment to rezone Plan 072 5380, Block 3, Lot 1 from Fort Vermilion Highway Commercial “FV-HC” & Fort Vermilion Light Industrial “FV-LI” to Fort Vermilion Heavy Industrial “FV-HI” to accommodate a service station – major.

REQUEST FOR DECISION

Meeting:	Regular Council Meeting
Meeting Date:	July 14, 2021
Presented By:	Caitlin Smith, Manager of Planning & Development
Title:	PUBLIC HEARING Bylaw 1228-21 Land Use Bylaw Amendment to Rezone Plan 072 1505, Block 12, Lot 1 from Fort Vermilion Highway Commercial “FV-HC” to Hamlet Residential 1 “H-R1”

BACKGROUND / PROPOSAL:

Mackenzie County has received a request to rezone Plan 075 1505, Block 12, Lot 1 in the Hamlet of Fort Vermilion from Fort Vermilion Light Industrial “FV-LI” to Hamlet Residential 1 “H-R1” to accommodate a multi-family residence.

The subject parcel in approximately 2.0 hectares (4.99 acres) in size, there is no maximum lot size established for the Hamlet Residential 1 “H-R1” zoning district within the Land Use Bylaw.

The proposed bylaw was presented to the Municipal Planning Commission on May 27, 2021 where the following motion was made:

MPC 21-05-075 *MOVED* by Beth Kappaler

That the Municipal Planning Commission recommend to Council to approve Bylaw 12xx-21 being a Land Use Bylaw Amendment to rezone Plan 072 1505, Block 12, Lot 1 from Fort Vermilion Light Industrial “FV-LI” to Hamlet Residential 1 “H-R1” to accommodate a multi-family residence, subject to public hearing input.

CARRIED

Bylaw 1228-21 was present to Council on June 8, 2021 where the following motion was made:

MOTION 21-06-495 *MOVED* by Councillor Driedger

Author: N Friesen **Reviewed by:** C Smith **CAO:**

That first reading be given to Bylaw 1228-21 being a Land Use Bylaw Amendment to rezone Plan 072 1505, Block 12, Lot 1 from Fort Vermilion Light Industrial “FV-LI” to Hamlet Residential 1 “H-R1” to accommodate a multi-family residence, subject to public hearing input.

CARRIED

An incorrect location map and current zoning were presented at the previous Council meeting on June 8, 2021. The error does not affect the intention of the Bylaw and does not require re-advertising. The bylaw being presented today has been amended to contain the corrected zoning.

OPTIONS & BENEFITS:

Options are to to pass, defeat, or table second and third reading of the bylaw.

COSTS & SOURCE OF FUNDING:

Costs consisted of advertising the public hearing and adjacent landowner letters which were borne by the applicant.

SUSTAINABILITY PLAN:

Goal E26 That Mackenzie County is prepared with infrastructure and services for a continually growing population.

COMMUNICATION/PUBLIC PARTICIPATION:

Public Hearing is required prior to second and third reading.

POLICY REFERENCES:

Not applicable at this time.

RECOMMENDED ACTION:

Simple Majority Requires 2/3 Requires Unanimous

Author: N Friesen **Reviewed by:** C Smith **CAO:** _____

That second reading be given to Bylaw 1228-21 being a Land Use Bylaw Amendment to rezone Plan 072 1505, Block 12, Lot 1 from Fort Vermilion Highway Commercial "FV-HC" to Hamlet Residential 1 "H-R1" to accommodate a multi-family residence.

Simple Majority Requires 2/3 Requires Unanimous

That third reading be given to Bylaw 1228-21 being a Land Use Bylaw Amendment to rezone Plan 072 1505, Block 12, Lot 1 from Fort Vermilion Highway Commercial "FV-HC" to Hamlet Residential 1 "H-R1" to accommodate a multi-family residence.

Section 9 | Land Use District Regulations

9.17 Hamlet Residential 1 (H-R1)

Purpose

- 9.17.1 The purpose of the Hamlet Residential 1 (H-R1) district is to provide for single family dwellings, within all HAMLETS, through a variety of building forms while considering medium density residential forms permitted context compatibility.

Permitted and Discretionary Land Use Classes

- 9.17.2 Land use classes within the following table shall be permitted or discretionary within the Hamlet Residential 1 (H-R1) district of this BYLAW.

Permitted	Discretionary
ACCESSORY BUILDING	BED AND BREAKFAST BUSINESS
BUILDING DEMOLITION OF REMOVAL	DAY CARE FACILITY
DWELLING - SINGLE FAMILY	DAY CARE HOME
GARAGE - ATTACHED	DWELLING – DUPLEX
GARAGE - DETACHED	DWELLING – GROUP HOME
MANUFACTURED HOME - MOBILE	DWELLING – MULTI-FAMILY
MANUFACTURED HOME - MODULAR	DWELLING – ROW
SECONDARY SUITE	DWELLING – STACKED ROW HOUSING
	HOME BASED BUSINESS MEDIUM
	HOME BASED BUSINESS MINOR
	RESIDENTIAL SALES CENTRE
	TOURIST HOME

Section 9 | Land Use District Regulations

Regulations

- 9.17.3 In addition to the regulations contained in Section 8, the following standards shall apply to every DEVELOPMENT in this LAND USE DISTRICT.

Regulation	Standard
Max. Lot Area	
Min. Lot Dimensions	
Width	16.8m (55.0ft)
Depth	33.5m (110.0ft)
Min. Setback	
Yard – Front	7.6m (25.0ft)
Yard – Interior Side	1.5m (5.0ft)
Yard – Exterior Side	3.1m (10.0ft)
Yard – Rear	2.4m (8.0ft) with overhead utility servicing 1.5m (5.0ft) with underground utility servicing

Additional Regulations

- 9.17.4 All new subdivisions shall have underground servicing.
- 9.17.5 In addition to Section 8.33 of this BYLAW, the Development Authority may require any DISCRETIONARY USE to be screened from view with a vegetated buffer strip and/or other SCREENING of a visually pleasing nature, satisfactory to the Development Authority.
- 9.17.6 The architecture, construction materials and appearance of buildings and other structures shall be to accepted standards and shall complement the natural features and character of the site to the satisfaction of the Development Authority.
- 9.17.7 The Development Authority may decide on such other requirements as are necessary having due regard to the nature of the proposed DEVELOPMENT and the purpose of this LAND USE DISTRICT.

REQUEST FOR DECISION

Meeting:	Regular Council Meeting
Meeting Date:	July 14, 2021
Presented By:	Caitlin Smith, Manager of Planning and Development
Title:	PUBLIC HEARING Bylaw 1230-21 Land Use Bylaw Amendment to Rezone Part of Plan 182 1653, Block 2, Lot 4 from Rural Industrial General “RIG” to Rural Country Residential 4 “RCR4”

BACKGROUND / PROPOSAL:

Administration has received a Land Use Bylaw Amendment application to rezone a portion of Plan 182 1653, Block 2, Lot 4 from Rural Industrial General “RIG” to Rural Country Residential 4 “RCR4”. The subject lot is adjacent to the north boundary of the Hamlet of La Crete.

The Rural Country Residential 4 “RCR4” zoning district was adopted by Council on June 8, 2021 with the following motion:

MOTION 21-06-507 MOVED by Councillor A. Peters

That third reading be given to Bylaw 1224-21 being a Land Use Bylaw Amendment to add Rural Country Residential 4 (RCR4) to Section 9.

CARRIED

The developer has submitted an eighty (80) lot subdivision lot layout plan which is proposed to be half industrial lots and half country residential type lots with a 15m berm for buffer. The industrial portion (32-SUB-21) was approved by the Municipal Planning Commission on June 10, 2021.

The applicant would like to develop 0.8-1.5 acre rural country residential lots, similar in size to the hamlet country residential lots in La Crete; the intension of the area would be estate living. Only dwelling-single family homes with attached garages would be permitted and the homes would be required to be a minimum of 1500 sq ft less the garage.

Author: N Friesen **Reviewed by:** C Smith **CAO:**

The developer would like to have higher density lots adjacent to the hamlet that would eventually be within hamlet should boundaries change. This would be the first rural country residential subdivision with lots of this size.

Currently, there are no Area Structure Plan reference to this specific location other than the 2020 La Crete Industrial Lands strategy. This entire parcel has been identified as proposed light industrial pocket as La Crete expands.

Administration and the developer have come to a temporary servicing solution until municipal sanitary sewer can be installed.

Bylaw 1230-21 was presented to Council for first reading on June 23, 2021 where the following motion was made:

MOTION 21-06-541 **MOVED** by Councillor Wardley

That first reading be given to Bylaw 1230-21 being a Land Use Bylaw Amendment to Rezone Part of Plan 182 1653, Block 2, Lot 4 from Rural Industrial General "RIG" to Rural Country Residential 4 "RCR4", subject to public hearing input.

CARRIED

Bylaw 1230-21 was presented to the Municipal Planning Commission on June 24, 2021 where the following motion was made:

MPC 21-06-094 **MOVED** by Beth Kappelar

That the Municipal Planning Commission recommend to Council to APPROVE Bylaw 1230-21 being a Land Use Bylaw Amendment to Rezone Part of Plan 182 1653, Block 2, Lot 4 from Rural Industrial General "RIG" to Rural Country Residential 4 "RCR4", subject to public hearing input.

CARRIED

OPTIONS & BENEFITS:

Options are to pass, defeat or table second and third reading of the bylaw.

COSTS & SOURCE OF FUNDING:

Mackenzie County Regional Waterline (MCRW)

Draft Meeting Slides
14 July 2021

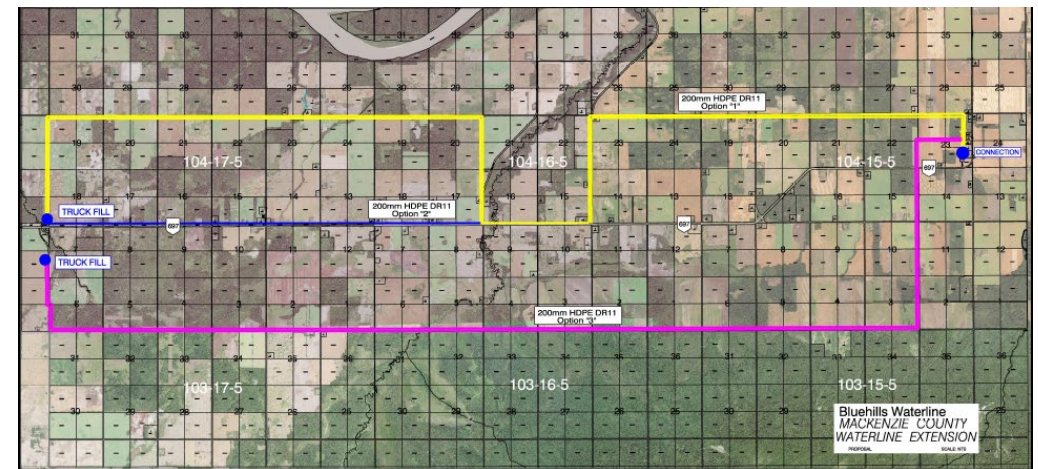

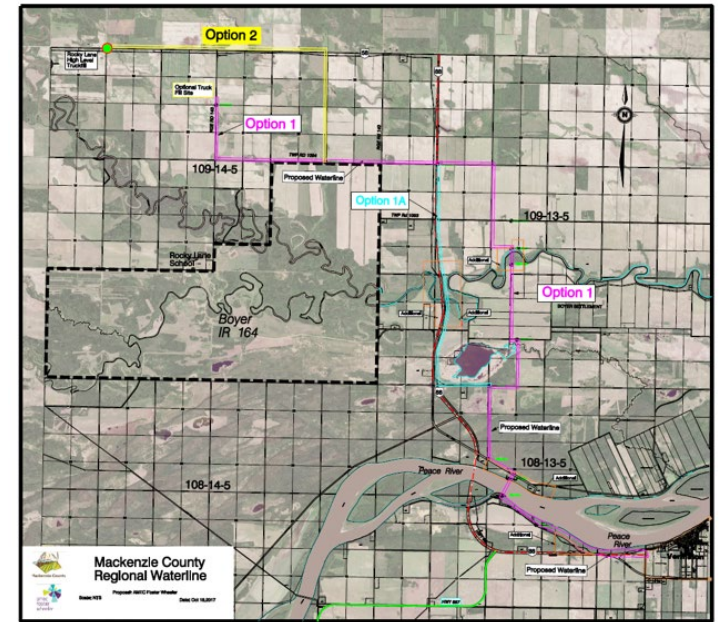

Presenter name goes here

Design Criteria by Mackenzie County Rock Lane and Bluehills

- Source of supply
 - Rocky Lane – Fort Vermilion WTP via Fort Vermilion truckfill
 - Bluehills – La Crete WTP via Buffalo Head Prairie truckfill
- Waterline – HDPE, minimum 200mm
 - Larger line across Peace River to accommodate future growth to north
 - Domestic demand along waterline - 50 domestic connections @ 1 gpm (272 m³/d)
 - Maintain minimum 30 psi in waterline
- Rocky Lane & Bluehills Truckfills
 - Prefabricated metal (similar to Buffalo Head Prairie and Fort Vermilion truckfills)
 - 450 m³ capacity
 - Fill rate 11 L/s, fill in 12 hours
 - Truck loading pad constructed on grade

Rocky Lane & Bluehills - Status

- Preliminary design completed including:
 - Servicing Options: Rocky Lane TF, plus Child Lake, plus High Level
 - Multiple alignment options as shown for Rocky Lane
 - 3 alignment options for Bluehills
 - Preliminary geotechnical investigation
 - Preliminary environmental review
 - Feasibility study, Peace River crossing
 - Feasibility study, Steephill Creek crossing
 - Land acquisition requirements
 - Construction cost estimates
 - Funding alternatives

Rocky Lane Services Options

- Scenario 1 – Fort Vermilion to Rocky Lane Truckfill
 - Required Flow = 11 L/s + 3.15 L/s (225 gpm), 28.8 to 34.1 km 8 inch pipe
 - Preliminary Construction Cost (2018): \$33-\$38 million depending on route
- Scenario 2 – Fort Vermilion to Rocky Lane & Child Lake (51.3 km)
 - Required Flow = 11 L/s + 3.15 L/s + 3.5 L/s (280 gpm), 51.3 km 10 inch pipe
 - Preliminary Construction Cost (2018): \$63.2 million, exclusive of WTP upgrade
- Scenario 3 – Fort Vermilion to Rocky Lane, Child Lake, & West Truckfill
 - Required Flow = 11 L/s + 3.15 L/s + 3.5 L/s + 11 L/s (455 gpm), 12 inch pipe
 - Preliminary Construction Cost (2018): \$73.0 million, exclusive of WTP upgrade
- Scenario 4 – Supply to High Level (+ 171.02 L/s), 85 km of 24 inch (DCL Siemens)
 - Rechlorination station may be required for serving Child Lake

Bluehills Servicing Options

- 8 inch HDPE sized for flow of 11 L/s to fill 450 m³ truckfill in 12 hours plus 3.15 L/s demand for domestic connections
- Minimum pressure in line 30 psi
- Option 1 – Twp Rd 1044 alignment, 35.3 km, \$34 million (2018)
- Option 2 – Hwy 697 alignment, 30.35 km, \$33.3 million (2018)
- Requires coring through floor of Buffalo Head Prairie Truckfill to install pumps
- May require upgrades in waterlines La Crete to BHP Truckfill

Child Lake Water Demand - Conceptual

- 2016 Federal census population 216 persons vs 218 at Boyer First Nation
- Initial max day demand Boyer River WTP 150 m³ (personal communication Tetra Tech May 23, 2018)
- Assume Child Lake max day is the same – 150 m³
- Allowance for growth – assume = 150 m³ in max day demand
- Total max day demand for design of waterline = 300 m³/d (3.5 L/s)
- Rechlorination may be required along the waterline
- To meet a max day demand of 300 m³/d at Child Lake, capacity improvements at Fort Vermilion WTP will be required
 - Plant capacity 1,900 m³/d, 2017 max day 1,300 m³
 - Plus Rocky Lane + domestic + Child Lake = 1,022 m³/d new demand on the plant

Child Lake – Administrative Considerations

- Council & Beaver First Nation jointly develop design flows for Child Lake, the preferred routing to Child Lake and the preferred location of the truckfill at Child Lake
- Council & Beaver First Nation consider the joint development of a business model for the joint administration of the Regional Water Line if it is extended to Child Lake

Alignment Child Lake – High Level, Conceptual

- Child Lake truckfill likely located near Rge Rd 162 and Twp Rd 1094/1092
- To avoid construction along Hwy 58, follow Twp Rd 1094 to Rge Rd 184, turn north to an easement to be acquired along Hwy 58 to the east limit of the service area (INSERT PLAN HERE)
- Extend waterline to alternate connection point as required

Extend Service to High Level - Conceptual

- Water Demand: 2010 DCL Siemens Engineering Ltd – 2060 max day demand = 171.02 L/s (14,800 m³/d = 2,700 usgpm)
 - Keith Straub 21/06/28 – given existing Town infrastructure, consider 75 L/s
- Distance Fort Vermilion to eastern limit of High Level ~ 85 km
- Distance Child Lake to eastern limit of High Level ~ 35 km
- Requires booster pump station somewhere west of Rocky Lane/Child Lake truckfill, rechlorination station also required at TBD location
- Fort Vermilion WTP rated for 1,900 m³/d. A new plant will be required to service High Level

Alternate Concept – Raw Waterline to High Level vs Potable Waterline

- High Level goal is to secure a long term, reliable water supply
 - Previous studies have looked at a raw water supply from Peace River at Fort Vermilion
- Advantages of raw water supply versus treated water supply
 - Peace River quality much better than High Level's current source
 - With better raw water, High Level can increase capacity of their existing water treatment plant from 6,000 m³/d to around 8,000 m³/d while also reducing/eliminating upgrade requirements at Fort Vermilion WTP
 - Communities, such as Child Lake, can draw off raw water line and build and operate their own WTP which would also supply a local truckfill for community use
 - Lessen THM and water age concerns, reduce need for rechlorination
 - Potentially smaller line required = lower pipeline capital and operating costs
 - Agricultural and industrial (such as aggregate producers) do not need potable water

Alternate Concept – Raw Waterline

- Disadvantages
 - Domestic connections along the line would require own treatment systems
 - Raw water not as desirable for mixing agricultural sprays, but can be mitigated with truckfills connected to communal WTPs or combined WTP/Truckfill
 - Who operates and maintains?
 - Multiple WTPs vs one centralized WTP adds to operations and maintenance complexity and increases operating cost on a per unit of water basis, but does provide redundancy
 - Funding may be more challenging

Raw Water Supply Line vs Potable Water Line

- Conduct a separate, parallel study and business case development on the concept of a raw water supply line to High Level, with community draw offs with their own WTPs and truckfills to service rural demand for potable water
- Confirm raw water demand at High Level and assess probable demands for communities, agriculture, industry and domestic
- Develop construction cost estimates

Raw Waterline Conceptual Sizing

- High Level Demand – 75 L/s – to be confirmed by parallel study
- Rocky Lane Truckfill plus domestic demand plus Child Lake - 11 L/s + 3.15 L/s + 3.5 L/s = 17.65 L/s – to be confirmed by parallel study

Raw Waterline – Routing Data Collection

- Utilize data collected for Rocky Lane and supplement for raw water line extension to High Level, including:
 - Preliminary geotechnical investigation
 - Preliminary environmental review
 - Feasibility study of water course crossings
 - Land acquisition requirements
- Develop
 - Construction cost estimates, including community WTPs and truckfills
- Examine
 - Funding alternatives
 - Governance alternatives

Raw Water Supply Line – Conceptual Sizing

- Example
 - Scenario 1 - Allowance for new consumers – 17.35 L/s, plus High Level, Child Lake, Rocky Lane Truckfill and domestic - total 110 L/s
 - Scenario 1 - Design raw water line for 110 L/s (1,750 usgpm) to Child Lake (~ 50 km) and 75 L/s Child Lake to High Level (~ 35 km)
 - Minimum 18 inch DR11 DIPS HDPE to Child Lake
 - Booster pump station, smaller diameter water line for extension to High Level

wood.

Chief Administrative Officer

Monthly Report to the CAO

For the month of June, 2021

From: Byron Peters,

Director of Projects & Infrastructure/Deputy CAO

PLANNING, PROJECTS & INFRASTRUCTURE

Strategic Priorities

Program/Activity/Project	Timeline	Comments
Land Use Framework	TBA	The Access Management Plan (AMP) for Bistcho is in the early stages. Provided feedback to AEP for Bistcho Lake sub-regional plan. Continuing conversations with AEP regarding some items in the draft plan.
Community Infrastructure Master Plans & Offsite Levies	IMPs complete Levies to be completed in Q2 2021	First reading of bylaw received in June. Next stakeholder meeting scheduled for July 20 th at 5 pm. Planning to present to council in August for final approval.
Municipal Development Plan	Started Q3 2020	Joint project. See Caitlin's report for project update.
Asset Management	Ongoing	Working on the AM roadmap and strategy to further break it down into attainable pieces. Working our way through priorities and steadily adding more assets and data into a common database.

Annual Operating Programs, Projects and Activities

Program/Activity/Project	Timeline	Comments
Economic Development		Have not had the time/resources to focus on formal ec dev. Relying on REDI at this time for most overarching items. Received a data request to help inform a business case for a new potential business.
101 Ave rebuild & pave		Ground conditions were terrible, but confident that we've got a good road constructed. Paving complete, some ditch work remaining.
100 St & 109 Ave Intersection Improvement		Project is complete.
100 St & 94 Ave Traffic Light		Were some minor delays for some site materials, project expected to start early August.

Gravel Crushing		Making good progress on the plan for 2021 and 2022. On schedule to issue a tender for overburden removal later this summer.
Fort Vermilion (Wop May) Airport Recovery		Expecting to tender the repairs within the next month. There will be a long lead time on some electrical components, so expect project completion in late 2021.

Personnel Update:

No changes in the department. Supporting John in Utilities and the new hires in various roles as best I can.

Other Comments:

Most 2021 projects are well underway with construction started or completed. Utilities projects are a little further behind, but still proceeding well. In many ways it feels early to be having the conversation, but we’re starting to identify key infrastructure items for the 2022 capital plan.

From an infrastructure planning perspective, we have identified a detailed storm water management plan for La Crete as the next plan to complete, and will be proposing this to council for consideration in the 2022 budget.

Recent additions to the flood mitigation team have made a huge difference to my workload and has resulted in more mitigation work get underway. It’s exciting to see the work and progress move along at a faster pace, and I’m happy to continue to do my part to contribute to the success of the project. Continuing to work with MA/AEMA on the grant agreement for the flood mitigation project.

Utilities department remains shorthanded, so I continue to lead or assist on the capital projects. The operations staff have not required any direct support from me, as they all have a solid understanding of their roles and responsibilities.

Monthly Report to the CAO

For the month of June, 2021

From: Caitlin Smith,
 Manager of Planning and Development

Strategic Priorities for Planning & Development

Program/Activity/Project	Timeline	Comments
Land Use Framework	TBA	Joint project report; see Byron's report for project update.
Municipal Development Plan, Land Use Bylaw, and Fort Vermilion Area Redevelopment Plan	Q3 2021	Administration meets with the consultant bi-weekly. O2 is actively updating the Land Use Bylaw and Municipal Development Plan. A Land Use Bylaw draft has been sent to administration for review and administration has commented. There will be a draft version made available online in late July/early August. Public Consultation will continue closer to the fall.

Annual Operating Programs, Projects and Activities

Program/Activity/Project	Timeline	Comments
Airport Planning	Q3 2021	<p>WSP has been engaged to update the AVPA for LC and FV airports, and to revise the airport development plans. Comments had been sent to WSP for final revision of the AVPA, plan to bring the final version forward at a Council meeting when completed. WSP has sent a revised version for review this past week. The project was delayed due to multiple layoffs.</p> <p>FV airport development plan needs to be revised to account for the flooding. LC airport development plan will need to be revised again as the plan is outdated and doesn't reflect the proposed changes from Council.</p>
La Crete Area Structure Plan Revision	Q2 2021	The new future transportation plan/network for the area west of 100 th

		Street and south of 109 th Avenue has been drafted and is being revised. The updated version will be advertised and brought back to Council for approval.
100A Street Land Acquirement (Future Main Street Widening in La Crete)	Q3 2021	Administration has revised the plan from acquiring 10m to 3m and an addition mile North and South as directed by Council. This new plan has been sent to affected landowners and a stakeholder meeting will take place on July 8, 2021 to discuss the changes.

Personnel Update:

The Development Officer position has been filled by an internal applicant. There will be a gap in the department again as another staff member has been placed on medical leave. The remaining department staff including myself are covering multiple roles to keep operations going.

Other Comments:

Development is continuing and there hasn't been much of a pause to date. Most of the urban multi-lot subdivisions should be starting construction in the next few weeks as they are submitting their engineered drawings, signing off development agreements, and paying their fees. Administration has been actively working with the developers to get things moving.

The department is supporting the La Crete offsite levy project in conjunction with the Projects and Infrastructure department.

MONTHLY REPORT TO THE CAO

For the Month Ending June, 2021

From: Jennifer Batt
Director of Finance

Annual Operating Programs, Projects and Activities

Program/Activity/Project	Timeline	Comments
2021 Operating & Capital	Ongoing	Review Operating Budget to Actual. Review Capital Budget to Actual. Distribute reports to CAO & Directors for reporting. 5 year capital plan requirements brought to Committee of the Whole meeting for discussion. 2021 Tax collection and review.

Director of Operations**

REPORT TO CAO

June, 2021

From: Grant Smith, Agricultural Fieldman

Annual Operating Programs, Projects and Activities

Program/Activity/Project	Timeline	Comments
Roadside Spraying	2021	Roadside Spraying contract was signed with Outback Ventures on June 2 nd . Commencement date is June 10 th . All roads south of 106-0 (Airport Road) will be sprayed in 2021. This includes Buffalo Head, Blue Hills and Tompkins areas.
Weed Inspection	2021	One Seasonal Weed Inspector has been hired. Commencement date is May 3 rd . Duties include Field Inspections, Roadside Grass Seeding, Beaver Dam removal, Clubroot Inspections, Shelter belt tree distribution, Water Pump rentals, etc.
Ag Land Development Proposals	2021	A land lease agreement was signed with Tom Braun of High Level on June 8 th . Length of lease is 15 years. Expiry date is 2035.
Emergency Livestock Response Plan	2021	The Draft has been completed, and will be forwarded to AEMA for ratification.
Seed Cleaning Plant Inspections	2021	Seed Cleaning Plants were inspected on January 7 th . Frontier Seed Plant: 93% Sunrise Mobile Plant: 92% Both plants are maintained well and run efficiently. The High Level Plant was not inspected due to renovations.
Shelterbelt Program	June, 2021	Trees were picked up in Fairview on June 4 th . Approximately 2500 seedlings were received and distributed to County Ratepayers.
VSI Program	2021	Mackenzie County is still participating in the program. Council agreed to continue at the current 50% rate.
Water Pumping Program	2021	The water pumping program commenced on April 1 st . To date there are two rentals.

Roadside Mowing	2021	Commencement date is July 11 th . Administration will be meeting with Contractors prior to commencement date to update on requirements, culvert damage, etc. All County roads are mowed. All roads south of the Peace River will receive a single pass cut, all roads north of the Peace River will receive a full width cut in 2021.
Spring Ditch Maintenance	March, 2021	Major problem areas in County Flood Control channels and road ditches will be opened to prepare for runoff to avoid flooding and avoid erosion damage to infrastructure. Areas to be monitored are Buffalo Head, Blue Hills, La Crete East, High Level. Local contractors will be utilized.

REQUEST FOR DECISION

Meeting:	Regular Council Meeting
Meeting Date:	July 14, 2021
Presented By:	Don Roberts, Director of Community Services
Title:	Fort Vermilion Street Scape Dock Project

BACKGROUND / PROPOSAL:

In 2018 Council made the following motion

MOTION 18-01-052
Requires 2/3

MOVED by Councillor Cardinal

That the budget be amended to reallocate the remaining \$25,394.00 from the Fort Vermilion Walking Trail budget to the 2018 Fort Vermilion Streetscape project for the construction of a second dock.

CARRIED

The funds were reallocated to the Fort Vermilion Street Scape budget but it was never captured what the funds were to be used for.

At the June 10th Community Services Meeting the following motion was made.

MOTION CS-21-06-045

MOVED by Councillor Cardinal

That a recommendation be made to Council to create separate line item under the Fort Vermilion Street Scape budget be created to identify \$25394 for a second dock in Fort Vermilion

CARRIED

Author: D. Roberts **Reviewed by:** _____ **CAO:** _____

OPTIONS & BENEFITS:

Option 1

Develop a new project identifying “The Fort Vermilion Street Scape Second Dock”

COSTS & SOURCE OF FUNDING:

Fort Vermilion Street Scape current budget - \$87,035

Budget after reallocating;

Fort Vermilion Street Scape -	\$61,641
Fort Vermilion Street Scape Second Dock	\$25,394

SUSTAINABILITY PLAN:

Strategy C1.2

Undertake a financial and operational review of County recreational facilities and equipment to:

- ensure adequacy of capital, operating funding and reserves,
- identify opportunities for increased usage, increased revenues and decreased costs,
- ensure optimal use of funds,
- identify other efficiencies that could mitigate the size of the annual grant required from the County to operate the facilities.

COMMUNICATION / PUBLIC PARTICIPATION:

Nil

POLICY REFERENCES:

RECOMMENDED ACTION:

- Simple Majority Requires 2/3 Requires Unanimous

That the budget be amended with \$25,394 from the Fort Vermilion Street Scape project being allocated to a new project - Fort Vermilion Street Scape Second Dock project.

REQUEST FOR DECISION

Meeting:	Regular Council Meeting
Meeting Date:	July 14, 2021
Presented By:	Willie Schmidt, Manager of Fleet Services
Title:	Vehicle Disposal

BACKGROUND / PROPOSAL:

Administration is seeking direction as to the disposal Unit 1051 a 2014 Ford Interceptor (Explore) this vehicle was used as the Peace Officers Vehicle. All peace officer components (lights, radio, etc) have been removed from the vehicle. The vehicle currently has 235,000 km on it. Similar vehicles have been sold at auction in southern Alberta for an average of \$3050, however administration feels that this vehicle will sell for more at a local consignment auction.

OPTIONS & BENEFITS:

Option 1:
Dispose of units at local public auction in July 2021.

Benefit:
Funds for selling units will go into equipment & vehicle reserve.

COSTS & SOURCE OF FUNDING:

SUSTAINABILITY PLAN:

COMMUNICATION / PUBLIC PARTICIPATION:

Author: C. Sarapuk **Reviewed by:** _____ **CAO:** _____

POLICY REFERENCES:

RECOMMENDED ACTION:

Simple Majority Requires 2/3 Requires Unanimous

That Unit 1051 be sent to La Crete Auction Mart for the July 24, 2021 consignment sale.

REQUEST FOR DECISION

Meeting:	Regular Council Meeting
Meeting Date:	July 14, 2021
Presented By:	Byron Peters, Deputy Chief Administrative Officer
Title:	Storm Pond “A” for the hamlet of La Crete

BACKGROUND / PROPOSAL:

The La Crete North Storm Design Report was developed by Helix Engineering Inc. with the report approved by Council at the November 25th Regular Council meeting.

Pond “A” of the conceptual drainage plan is approximately 2.9ha in size and is designed to service the benefitting areas (Refer to Schedule 1) on both the north and south side of 109th Avenue. The construction of Pond “A” and the ditch south of 109 Avenue is needed now. The drainage improvements needed are due to the existing drainage problems within the proposed servicing area, the current development activities which have magnified the drainage problems, and anticipated future growth.

In addition to Pond “A”, the proposed drainage ditch to be built on the south side of 109th Avenue, which connects to the proposed storm pond, forms an integral part of the overall storm water management design. A 10 - meter right of way will be required to accommodate the room required in construction of the drainage ditch.

The estimated construction costs for the project as described within the La Crete North Storm – Design Report dated November 2020 and adopted by Council are.

- Pond A \$654,700
- Offsite \$369,000
- Total \$1,023,700

On May 26, 2021 Council made the following motions in regards to Storm Pond A.

MOTION 21-05-455 MOVED *by Councillor Braun*

Author: S Gibson **Reviewed by:** B Peters **CAO:** _____

That third reading be given to Bylaw 1222-21 Off-Site Levy Bylaw – La Crete North Storm Water Management.

CARRIED

FINANCE: **10. a) Bylaw Borrowing 1218-21-Stormpond A Hamlet of La Crete**

MOTION 21-05-457 **MOVED** by Councillor Braun

That second reading be given to Bylaw 1218-21 being the borrowing bylaw for the North Storm Pond “A” – Hamlet of La Crete Project.

CARRIED

MOTION 21-05-458 **MOVED** by Councillor Bateman

That consideration be given to go into third reading be given to Bylaw 1218-21 being the borrowing bylaw for the North Storm Pond “A” – Hamlet of La Crete Project.

CARRIED

MOTION 21-05-459 **MOVED** by Councillor Braun

That third reading be given to Bylaw 1218-21 being the borrowing bylaw for the North Storm Pond “A” – Hamlet of La Crete Project.

CARRIED

Based on the prior motions of council, detailed design is well underway and tendering will be completed this summer, with construction anticipated this fall. Administration requires a council motion to formally add the project to the current budget.

REQUEST FOR DECISION

Meeting:	Regular Council Meeting
Meeting Date:	July 14, 2021
Presented By:	Caitlin Smith, Manager of Planning and Development
Title:	Bylaw 1232-21 Land Use Bylaw Amendment to Rezone Plan 2938RS, Block 2, Lots 2-7 & 9 and Plan 2938RS, Block 3, Lot 11 from Hamlet Residential 1 “H-R1” to Fort Vermilion Commercial Centre “FV-CC”

BACKGROUND / PROPOSAL:

Mackenzie County recently purchased a number of lots with the Hamlet of Fort Vermilion for the purpose of relocating buildings and residences affected by the 2020 Ice Jam Flood. Plan 2938, Block 2, Lots 2-7 & 9 and Plan 2938RS, Block 3, Lot 11 were identified for business relocation as a number of commercial lots already exist nearby.

The lots are currently zoned Hamlet Residential 1 “H-R1” which is not appropriate for the proposed commercial use. The commercial area affected by the 2020 Ice Jam Flood was also zoned Fort Vermilion Commercial Centre “FV-CC”.

Only Plan 2938RS, Block 2, Lots 5 & 6 have been spoken for at this time, the proposed development on these lots is Retail – Convenience. A lot consolidation Bylaw is also being presented to Council for first reading.

OPTIONS & BENEFITS:

Options are to pass, defeat, or table first reading on the bylaw.

COSTS & SOURCE OF FUNDING:

Current costs will consist of advertising the public hearing and adjacent landowner letters which will be borne by the flood mitigation budget.

SUSTAINABILITY PLAN:

Author: N Friesen **Reviewed by:** C Smith **CAO:** _____

Goal E26 That Mackenzie County is prepared with infrastructure and services for a continually growing population.

COMMUNICATION/PUBLIC PARTICIPATION:

The bylaw amendment will be advertised as per MGA requirements, this includes all adjacent landowners. A rezoning notification sign will also be required to be displayed on the property as per Mackenzie County Land Use Bylaw regulation.

POLICY REFERENCES:

Not applicable at this time.

RECOMMENDED ACTION:

Simple Majority Requires 2/3 Requires Unanimous

That first reading be given to Bylaw 1232-21 being a Land Use Bylaw Amendment to rezone Plan 2938RS, Block 2, Lots 2-7 & 9 and Plan 2938RS, Block 3, Lot 11 from Hamlet Residential 1 “H-R1” to Fort Vermilion Commercial Centre “FV-CC” to accommodate commercial development, subject to public hearing input.

BYLAW NO. 1232-21
BEING A BYLAW OF
MACKENZIE COUNTY
IN THE PROVINCE OF ALBERTA

TO AMEND THE
MACKENZIE COUNTY LAND USE BYLAW

WHEREAS, Mackenzie County has a Municipal Development Plan adopted in 2009, and

WHEREAS, Mackenzie County has adopted the Mackenzie County Land Use Bylaw in 2017, and

WHEREAS, the Council of Mackenzie County, in the Province of Alberta, has deemed it desirable to amend the Mackenzie County Land Use Bylaw to accommodate commercial development.

NOW THEREFORE, THE COUNCIL OF THE MACKENZIE COUNTY, IN THE PROVINCE OF ALBERTA, DULY ASSEMBLED, HEREBY ENACTS AS FOLLOWS:

1. That the land use designation of the subject parcels known as:

Plan 2938RS
Block 2
Lots 2 through 7 (inclusive) & Lot 9

&

Plan 2938RS
Block 3
Lot 11

Within the Hamlet of Fort Vermilion, be rezoned from Hamlet Residential 1 “H-R1” to Fort Vermilion Commercial Centre “FV-CC” as outlined in Schedule “A” hereto attached.

READ a first time this ____ day of _____, 2021.

PUBLIC HEARING held this ____ day of _____, 2021

READ a second time this ____ day of _____, 2021.

READ a third time and finally passed this ____ day of _____, 2021.

FROM: Hamlet Residential 1 "H-R1"

TO: Fort Vermilion Commercial Centre "FV-CC"

Mackenzie County

REQUEST FOR DECISION

Meeting:	Regular Council Meeting
Meeting Date:	July 14, 2021
Presented By:	Caitlin Smith, Manager of Planning & Development
Title:	Bylaw 1233-21 Partial Plan Cancellation and Consolidation of Plan 2983RS, Block 2, Lots 5 & 6

BACKGROUND / PROPOSAL:

Mackenzie County has received a request to consolidate Plan 2983RS, Block 5, Lots 5 & 6 in the Hamlet of Fort Vermilion, to accommodate a larger commercial building.

The lots are currently zoned Hamlet Residential 1 “H-R1” which will need to be changes to Fort Vermilion Commercial Centre “FV-CC” to accommodate the proposed use. A Bylaw to rezone the subject lots is also being presented to Council this meeting for first reading.

Mackenzie County recently purchased the subjects lots to allow businesses affected by the 2020 Ice Jam flood to relocate away from the flood zone. This will be the second business relocating to this area and requiring a larger lot.

OPTIONS & BENEFITS:

Options are to pass, defeat, or table first reading of the bylaw.

COSTS & SOURCE OF FUNDING:

Current costs will consist of advertising the public hearing and adjacent landowner letters, which will be borne by the flood mitigation budget.

SUSTAINABILITY PLAN:

Title:	Rural Development Standards DEV007

BACKGROUND / PROPOSAL:

Administration is in the process of reviewing several policies to remove outdated information and update as required.

The Rural Development Standards DEV007 has been revised with the following proposed changes:

- Definitions for Local Improvement Bylaw, Off-site Levy, and Policy PW039 were added;
- A statement that overhead power only be considered in Country Residential areas if underground power is not viable, was added;
- Natural Gas installation requirements were clarified as they are often dependent on the utility provider;
- Requirement for private roads were updated to be in compliance with accepted engineering standards.

OPTIONS & BENEFITS:

Option 1: To approve the revisions to the Rural Development Standards Policy DEV007 as presented.

Option 2: Table Rural Development Standards DEV007 for more information or additions.

Mackenzie County

Title	Rural Development Standards	Policy No:	DEV007
-------	-----------------------------	------------	--------

Legislation Reference	Municipal Government Act, Part 17, Division 6/7 Section 5
-----------------------	--

Purpose

The purpose of the Rural Development Standards Policy is to establish rural development standards to ensure consistent development is maintained within the rural areas of the County and to provide clarity to developers respecting the County's expectations for rural development.

Policy Statement:

Mackenzie County and developers have a shared responsibility for defining and addressing the existing and future needs of the region by creating development policies consistent with Mackenzie County plans, policies, and bylaws ~~community objectives~~. Mackenzie County will provide guidance and vision for development objectives. These policies should be applied equitably and fairly to all within rural areas ~~that community~~.

All beneficiaries of new development should participate in the cost of providing and installing infrastructure in ~~the community~~ rural areas on an equitable basis that relates to the degree of benefit, through the use of off-site levies, local improvement bylaws and Endeavor to Assist clauses.

Definitions:

The following definitions are used for the purpose of this policy:

Country Residential – means Rural Country Residential, inclusive of all country residential zoning designations;

County – means Mackenzie County;

~~**Rural Industrial:** Refers to all rural industrial and/or commercial zoning districts.~~

Development Agreement – means a contract entered into between the municipality and the developer respecting ~~in regard to~~ the installation of municipal improvements and adherence to, ~~including~~ all conditions of approval ~~that need to be adhered to~~;

~~**Development Approval:** Refers to a subdivision/development approval where the application process has been followed and an approval subsequently issued by the development authority.~~

GMIS – means refers to the General Municipal Improvement Standards (engineering guidelines) for the Mackenzie County;

Local Improvement Bylaw – means Local improvements are capital construction (municipal improvement) projects that Council considers to be of greater benefit to a particular neighbourhood of the municipality than to the whole municipality, and that are to be paid for in whole or in part by a tax imposed as a local improvement;

Off-site Levy – means the charges payable to the County by the developer for the use and benefits received from the existing or proposed municipal improvements as stated As defined in the Alberta Municipal Government Act;

Policy PW039 – means to the County's Rural Road, Access Construction and Surface Water Management Policy;

Rural Industrial – means all rural industrial and/or commercial zoning districts;

Zoning – means land use district designations as per the Land Use Bylaw.

Guidelines:

1. Mackenzie County will:
 - a) adopt development standard requirements for individual zoning districts and locations as indicated in this policy and detailed within the General Municipal Improvement Standards (GMIS),
 - b) determine who is responsible for installation of the infrastructure as indicated in this policy,
 - c) determine who is responsible for the cost of installing the infrastructure as indicated in this policy, and
 - d) establish the mechanism of any cost sharing, Endeavor to Assist, or other financial considerations.
2. The developer will be responsible for all costs except where otherwise indicated in this policy.

Funding:

Funding for municipal infrastructure improvements required to support an approved Development will be provided by the developer. The County, through Endeavour to Assist provisions within the Development Agreement, may will provide assistance to the developer when oversizing is required to collect appropriate funds from benefiting lands when the benefiting lands are further developed.

When the County constructs municipal improvements in advance of developments the County will, through ~~the use of~~ an Off-site Levy bylaw(s) collect apportioned costs as assigned to benefiting lands.

Where a development requires that an arterial road be constructed, the County shall only consider covering the costs of upgrading the road from a collector to an arterial standard, and shall, whenever possible, utilize the mechanisms provided for by Off-site Levy or local improvement bylaw(s) to recover those costs.

All oversizing requirements shall be clearly identified by the developer on the tentative subdivision plan along with a written request for cost sharing, prior to final approval by the subdivision authority.

The County may consider providing a portion of the funding when oversizing, Off-site Levy, Endeavour to Assist, or other mechanisms are required, however this will be subject to negotiation and Council approval prior to the commencement of construction. ~~Funding in these situations may also be recouped by way of a local improvement bylaw.~~

Any cost sharing or other funding commitment by the County must be included in the Development Agreement and form part of the contractual commitment of each party. The County will not retroactively consider requests from a developer for funding or cost sharing where a Development Agreement has already been entered into for the project.

Rural Development Standards

Utilities

Utilities such as high-pressure gas lines, three phase power and other major utilities ~~crossings~~ shall cross County roads perpendicularly ~~to the road~~ wherever practicable. All utility providers ~~high pressure gas lines, three phase power and other major utility crossings~~ must obtain applicable crossing permits receive approval from the County prior to crossing any County road or other property or infrastructure. For routine installations of common utility infrastructure to serve individual lots or properties, notification shall be provided to the County prior to crossing any County road or other property or infrastructure.

Utility providers shall adhere to best practices regarding the installation, maintenance and marking of their infrastructure.

Power

New power installations shall be overhead and located in or adjacent to County road rights-of-way as per the utility provider's current practice.

Country Residential developments shall be serviced internally with underground power. Overhead servicing will only be considered where the developer has provided verification that underground installation is not viable, considering continuity with existing power supply, lot sizes and anticipated use, and other criteria as deemed necessary.

Lighting

Street lighting will not typically be installed in rural areas.

For all Country Residential and Rural Industrial developments, some level of road and intersection lighting may be required. Lighting will be expected to provide illumination for only those areas anticipated to have high traffic (vehicle, ATV or pedestrian) volumes.

Where a development is anticipated to significantly increase the traffic at a particular intersection, the County may request as part of a traffic impact assessment, that requirements for intersection lighting be reviewed by a qualified engineer.

Natural Gas

Gas servicing shall be provided to all new developments ~~shall allow for the provision of natural gas servicing.~~ Installation shall be in keeping with the utility provider's current standard practice. ~~Gas lines shall be located, at minimum, 9 m outside of any 20 m road right of way, and 4 m outside of any 30 m road right of way.~~

Depending on the location within the County, the developer may be required to install gas servicing as part of the improvements, in other areas the utility provider will independently install gas servicing as building development occurs.

~~For all roads identified as arterial, the setback requirements shall be a minimum of 40 m from the road right of way, and increasing up to 100 m in areas of difficult or undulating terrain in order to facilitate potential future road widening.~~

Telephone/Broadband Data

~~All new Country Residential and Rural Industrial Telephone and/or data infrastructure shall be provided for all developments shall be serviced with phone/data infrastructure,~~ to the specifications of the local telecommunications provider.

Installation of higher grade infrastructure is encouraged in order to offer provide telecommunications providers with better options for providing digital data to the community.

Storm Sewer

Design criteria shall be in accordance keeping with the County's GMIS.

All rural standard developments are Storm sewer servicing is anticipated to primarily use a be solely surface drainage system based with no underground infrastructure. Culverts shall be adequately sized to meet the required flow volumes and to aid in long term maintenance. The minimum specifications in the GMIS and the process outlined in Policy PW039 shall be followed for all culvert installations.

In Country Residential and Rural Industrial developments, storm water retention ponds may be required to mitigate the downstream effects of the development. Storm water retention ponds shall be constructed in accordance with design criteria established in the GMIS to reduce the downstream effects of the development. Ponds shall be constructed to service large areas, and be thoughtfully integrated with the subdivision design. All new developments shall create zero net change to the existing storm sewer peak flows. The County retains the ability to alter storm pond placement.

Oversized ditches along roadways will be strongly discouraged, and only permitted when clearly proven to be the most viable option, when considering construction costs, long term maintenance and safety. This assessment shall be completed by a qualified engineer.

Where additional right-of-way is required to facilitate the surface drainage, the developer is responsible for all aspects of the acquisition of such right-of-way.

Sanitary Sewer

Design criteria shall be in accordance keeping with the County's GMIS.

For all areas zoned for agriculture, zoned acreages and farms, the sanitary sewage shall be addressed dealt with on a site-specific individual basis and will typically be a surface pump out or field system. All installations shall meet provincial requirements.

For all Country Residential and Rural Industrial developments, sanitary sewer shall be considered collectively. Field systems may still be granted; however, extensive soil testing and ground water monitoring shall be conducted by a qualified professional prior to construction to ensure the long-term viability of ~~compactly placed~~ concentrated field systems.

In areas where the proximity to existing infrastructure permits, low pressure sanitary systems shall be permitted. All low-pressure systems shall be fully engineered, with pump and pipe sizing appropriately designed for full build out of the system. The engineer shall specifically consider odour concerns where the low-pressure system feeds into a gravity system or where air releases may be located, and provide sufficient evidence that the system design will not create odour concerns.

All sanitary sewer systems that will be ~~the under~~ County's responsibility by way of ownership ~~and/or~~ maintenance shall be located within a dedicated right-of-way, public utility lot (PUL) or easement, or ~~Location of sanitary lines shall be permitted~~ within an existing road right-of-way. If additional right-of-way is required, the developer is responsible for all aspects of the acquisition and registration of such right-of-way.

Water

Design criteria shall be in accordance ~~keeping~~ with the County's GMIS.

For all ~~areas zoned for~~ agriculture, ~~zoned acreages and farms, the~~ water servicing will be addressed ~~dealt with~~ on a ~~site-specific individual~~ basis and will be typically provided ~~It is anticipated that most of these developments will be serviced~~ by wells or cisterns.

For all Country Residential and Rural Industrial developments, water servicing shall be considered collectively ~~for the entire proposed development~~.

For all rural multi-lot developments adjacent to an existing County rural water line, the development is required to connect to the water line. All connections to ~~the~~ rural water lines shall be installed in accordance with the GMIS and as specified ~~with~~ within the County's Water and Sewer Bylaw.

Where proximity to an existing County rural water line permits, it is encouraged that new developments connect to the line.

All water mains that will be ~~the under~~ County's responsibility by way of ownership ~~and/or~~ maintenance shall be located within a dedicated right-of-way, PUL or easement, or ~~Location of water lines shall be permitted~~ within an existing road

right-of-way. If additional right-of-way is required, the developer is responsible for all aspects of the acquisition of such right-of-way.

Service Connections on Private Land Servicing

For all large lot development with multiple buildings serviced from an internal network, an isolation valve shall be provided at the property line. All internal underground servicing shall be engineered to meet **Alberta Environment and Parks AESRD, Standards and Guidelines for Municipal Waterworks, Wastewater and Storm Drainage Systems**, and a copy of the engineered drawings shall be provided to the County for review **prior to** ~~before~~ installation.

All private hydrants and valves shall be properly maintained to **the municipal** standards **set forth in the GMIS**. Preventative maintenance shall be performed annually, with records provided to the County Utilities department. Alternately, the Utilities department may be contracted to perform the preventative maintenance.

Roads and Road Edge

~~All road~~ Design **criteria** and construction shall be in **accordance** ~~keeping~~ with the County's GMIS **and** Policy PW039 ~~provides specific direction regarding the construction of local and collector roads which shall be adhered to.~~

Road widths shall be ~~determined~~ based on anticipated traffic types and volumes, and road classification.

~~Appropriate~~ Intersections shall be constructed **or upgraded** to accommodate **anticipated** traffic turning movements.

Aprons shall be paved where a new road joins to an existing asphalt surfaced road **in accordance with the GMIS and** ~~See~~ Policy PW039 ~~for details~~.

When a proposed development is anticipated to cause significant additional traffic, a traffic impact assessment shall be completed by a qualified professional. Depending on the outcome of the assessment, road upgrades may be required. Upgrades may consist of road widening, road reconstruction to increase the road structure, dust control by either temporary (oil/calcium) or permanent (asphalt) products, intersection improvements, lighting, and other measures that are warranted. The developer shall be responsible for all upgrades.

Arterial

The County has few rural arterial roads, **and are currently limited to the** Zama Access Road, 88 Connector and La Crete North & South access roads ~~are currently identified as arterial~~.

~~Arterial roads shall ideally have a minimum 40 m wide right of way.~~ When developments occur on lands adjacent to an arterial road, the County shall require the developer to provide additional road right-of-way to the County, if required, as a condition of **subdivision** ~~their~~ approval.

Private accesses onto arterial roads shall be strongly discouraged in order to reduce the impact on the free flow of traffic. Whenever practicable, access to a property shall be from a collector or local road.

Collector

~~Collector roads are identified within Policy PW039.~~ Country Residential and Rural Industrial developments are strongly encouraged to locate along collector roads in order to mitigate traffic concerns and reduce the amount of road upgrades required.

~~Collector roads shall ideally have a minimum 30 m wide right of way.~~ When developments occur on lands adjacent to a collector road, the County shall require the developer to provide additional road right of way to the County, if required, as a condition of their approval.

Developers are required to construct collector roads **in accordance with the GMIS and** ~~as per~~ Policy PW039.

Local

Developers are required to construct local roads **in accordance with the GMIS and** ~~as per~~ Policy PW039. Developments that may cause intensive traffic shall be strongly discouraged from being located along local roads.

Local roads constructed to a rural standard shall utilize swales or ditches for storm water management.

Sidewalks/Trails

Sidewalks are not anticipated to be constructed in rural areas. Trails, either asphalt or gravel/mulch, may be required for Country Residential or Rural Industrial developments, depending on location, anticipated pedestrian traffic and other factors as determined by the County.

Private Roads

Private roads shall be designed and constructed in accordance with accepted engineering standards and a copy of the engineered drawings shall be provided to the County for review prior to construction. Although right-of-way widths may be reduced due to lot constraints, road design, materials testing and other related activities shall be undertaken as if it were a public road. ~~Private roads shall be~~

~~constructed to an appropriate comparable standard as if it were a public road.~~

This applies to developments such as commercial developments with multiple tenants on a common property.

Upgrading Priorities

When considering road upgrades in the rural areas, the County shall prioritize roads in the following order:

1. Arterial
2. Collector
3. Local

Policy PW039 ~~currently~~ identifies the **County's** rural road classifications and designations.

Mackenzie County

Title	General Municipal Improvement Standards	Policy No:	DEV008
--------------	--	-------------------	---------------

Legislation Reference	Municipal Government Act, Part 17, Division 6/7 Section 5
------------------------------	---

Purpose

The purpose of the General Municipal Improvement Standards Policy is to establish that the minimum standards set forth in the General Municipal Improvement Standards (engineering guidelines) must be adhered to by the Mackenzie County, Developers, Engineering Consultants, Contractors, and others in all aspects of municipal improvement installations.

Policy Statement:

Mackenzie County, Developers, Engineering Consultants, Contractors, and others all have a responsibility to ensure that the proper installation of infrastructure is met as set forth in the General Municipal Improvement Standards (GMIS).

These guidelines are in place to ensure that the County municipality is provided with quality, cost efficient products that will meet an acceptable life expectancy with minimal maintenance requirements, while not prohibiting future land development.

Guidelines

1. All standards set forth in the ~~General Municipal Improvement Standards~~ GMIS shall be met;
2. These standards shall only be considered the minimum requirements;
3. All municipal improvements shall be up to accepted engineering practices and standards that address and meet the specific needs and site conditions of the development;
4. The Planning & Development Department will ensure that the GMIS is reviewed as required annually to ensure the standards and practices remain current and to address new deficiencies or standards that may arise:

- a) All County departments involved in the operation or maintenance of infrastructure shall be involved in the annual review process;
- 5. Any proposed revisions that significantly alter a standard and is likely to cause a large cost, either initially or for long term maintenance, shall be presented to the Public Works Committee for their consideration.

REQUEST FOR DECISION

Meeting:	Regular Council Meeting
Meeting Date:	July 14, 2021
Presented By:	Caitlin Smith, Manager of Planning & Development
Title:	Off-Site Levy Fee and Municipal Reserve Deferral

BACKGROUND / PROPOSAL:

Administration has received enquiries regarding subdividing large parcels of land within Hamlet boundaries for the purpose of sale prior to further subdivision. These types of subdivisions would take place within quarter sections with few previous subdivisions or with existing multi-lot subdivisions and are often defined as the benefiting area of one or more Off-Site Levy Bylaws.

In order to reduce the cost of preparing these lands for sale to a developer, landowners have enquired about deferring payment of Off-Site Levy fees and Municipal Reserve until further subdivision phases or until the time of development.

OPTIONS & BENEFITS:

Option 1:

Allow deferral of Off-Site Levy Fees and Municipal Reserve for large subdivisions within Hamlet boundaries. A Development Agreement would be signed by all parties and a caveat would be registered on the new title. This allows the developer to obtain title prior to subdividing small Hamlet lots and requires low initial investment for developers. If no further subdivision took place but the lot was developed, all fees would be due at that time.

Recouping of Off-Site Levies may be delayed but the total fees would remain the same.

Option 2:

Author: N Friesen **Reviewed by:** C Smith **CAO:** _____

Do not allow fees to be deferred to future phases of subdivision. The overall cost of subdividing remains the same but requires larger initial investment, deterring development, and land sale in those areas subject to Off-Site Levy Fees.

Deterring development within areas subject to Off-Site Levy Fees will delay recouping the costs already fronted by the County and will lead to leap-frog development.

Meeting:	Regular Council Meeting
Meeting Date:	July 14, 2021
Presented By:	Caitlin Smith, Manager of Planning & Development
Title:	Development Statistics Report – January to June 2021

BACKGROUND / PROPOSAL:

The following are the total number of issued permits for each year from January 1st to December 31st.

For 2021, the number of issued permits are from January to June. In addition, a comparison of approved development permits is included for the past five (5) years from January 1st to June 30th.

Approved Development Permit Applications (Annual)

- 2017 Development Permits 254 permits (construction value \$33,545,994.00)
 - 2018 Development Permits 218 permits (construction value \$29,711,491.00)
 - 2019 Development Permits 232 permits (construction value \$34,538,496.00)
 - 2020 Development Permits 392 permits (construction value \$70,574,441.00)
 - 2021 Development Permits 159 permits (construction value \$46,614,076.18)
- (January to June 2021)

Approved Development Permit Applications (First Half)

(January 1st to June 30th)

- 2017 Development Permits 135 permits
- 2018 Development Permits 119 permits

Author: L Washkevich **Reviewed by:** C Smith **CAO:** _____

- 2019 Development Permits 113 permits
- 2020 Development Permits 161 permits
- 2021 Development Permits 159 permits

Issued Building Permits (Annual)

- 2017 Building Permits 157 permits (value \$29,051,400.00)
 - 2018 Building Permits 153 permits (value \$24,706,496.03)
 - 2019 Building Permits 160 permits (value \$22,648,860.00)
 - 2020 Building Permits 288 permits (value \$40,716,510.35)
 - 2021 Building Permits 105 permits (value \$21,584,333.51)
- (January to June 2021)

**These numbers include all development that required a building permit.*

New Subdivision Applications (Annual)

Title:	Public Engagement Draft Conservation Agreement for Wood Bison

BACKGROUND / PROPOSAL:

Alberta and Canada have negotiated a draft conservation agreement using the provisions for agreements found in Section 11 of the Species at Risk Act. The Canada-Alberta Draft Conservation Agreement has been posted online for a 60-day public comment period until August 24th, 2021.

Please see attached information sheet.

That the Canada-Alberta Draft Conservation Agreement for Wood Bison Public Engagement be received for information.

Author: S Gibson **Reviewed by:** B Peters **CAO:** _____

Canada-Alberta Draft Conservation Agreement for Wood Bison in Alberta

Wood bison is an iconic wildlife species¹ in Canada, having important ecological value as well as cultural and spiritual value for many Indigenous peoples. Wood bison is federally listed as Threatened under the *Species at Risk Act*. In Alberta, wood bison that occur in a specified area in northwest Alberta are listed as Endangered under the provincial *Wildlife Act*, and the Ronald Lake bison herd is listed as a Subject Animal (Figure 1). Wood bison is also a priority species under the *Pan-Canadian Approach to Transforming Species at Risk Conservation in Canada*, through which conservation efforts are concentrated on collaboratively identified priorities.

Wood bison currently occupy about 6% of their original range. The overall population has declined significantly, from an estimated 168,000 animals in the late 1800s to approximately 8,500 individuals today. Wood bison continue to face numerous threats, including habitat loss or degradation, unregulated hunting, and introduced cattle diseases (bovine brucellosis and tuberculosis) that are present in some bison found within, and adjacent to, Wood Buffalo National Park. Given the significant reduction in the total population and range of wood bison, and presence of introduced diseases, the federal recovery objectives for wood bison are, in the short-term, to maintain the population size, range and disease-free status of each disease-free local population (or herd) of wood bison in the original range of wood bison in Canada.

Wood bison recovery in Alberta has been hindered by the ongoing threat of bovine tuberculosis and brucellosis. These diseases are no longer present in domestic livestock and there is a concern that wild bison could be a risk to this industry. In 2010, Alberta began implementing a plan to manage disease risk for northern Alberta wood bison populations located outside of Wood Buffalo National Park². The Parks Canada Agency has also taken steps to manage disease risk.

In January 2020, the Minister of Environment and Climate Change announced that wood bison are facing imminent threats to their recovery. Specifically, an Imminent Threat Assessment [<https://species-registry.canada.ca/index-en.html#/documents/3616>] concluded that two disease-free herds in northeastern Alberta, the Ronald Lake and Wabasca herds, are subject to threats that could, in the near-term, jeopardize achieving the recovery objectives of wood bison, and thus require immediate attention. The imminent threats to the Ronald Lake herd include the presence of diseased bison in Wood Buffalo National Park, which could transfer tuberculosis or brucellosis to the nearby Ronald Lake herd, and proposed industrial development in the herd's range, which could cause extensive habitat and range loss. The imminent threat to the small Wabasca herd includes unregulated harvest, which could lead to herd extirpation.

Wood Bison Conservation Agreement

Both Alberta and Canada recognize the importance of addressing these and other threats to maintain disease-free local populations of wood bison. To this end, they have negotiated a draft conservation agreement using the provisions for agreements found in Section 11 of the *Species at Risk Act*.

The conservation measures identified in the draft conservation agreement are intended to:

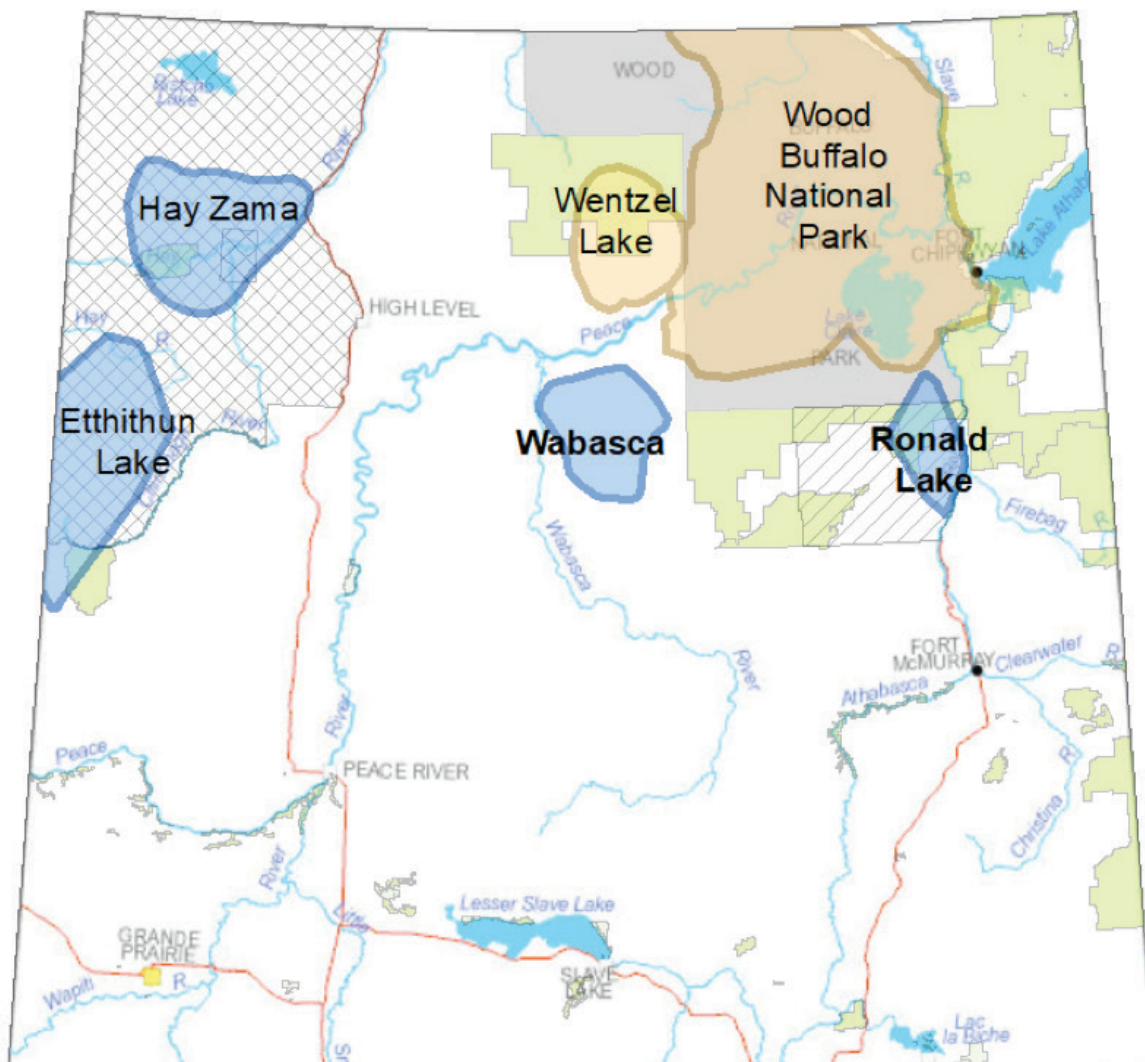

- Minimize future habitat loss and degradation;
- Reduce and eliminate the risk of disease transmission;
- Investigate and implement as required additional approaches to improve the population status of both herds from other threats; and
- Address information gaps, monitor populations, and assess effectiveness of the Conservation and Management Measures.

The draft conservation agreement also recognizes the importance of collaborating with Indigenous groups and stakeholders on the effective implementation of Conservation and Management Measures.

The draft agreement has been posted online for a 60-day public comment period.

¹ Wood bison (*Bison bison athabasca*) are a subspecies of American bison, but are considered a 'wildlife species' under the *Species at Risk Act*.

REQUEST FOR DECISION

Meeting:	Regular Council Meeting
Meeting Date:	July 14, 2021
Presented By:	Byron Peters, Deputy Chief Administrative Officer
Title:	Canada Community Revitalization Fund

BACKGROUND / PROPOSAL:

Mackenzie County has the opportunity to apply for the Canada Community Revitalization Fund (CCRF), which is intended to help communities build and improve their community infrastructure from the effects of the COVID-19 pandemic. The funding will focus on projects that assist with community vitality, support social and economic cohesion and revitalize communities. The program goal is to achieve these objectives through public space improvements to downtown and main street areas commercial areas. Capital expenditures for playground equipment, sidewalks and other public realm improvements for creating a more inviting down town are eligible for this grant.

CCRF will fund up to 75% of the project cost with a maximum contribution of \$750,000.00. Organizations are responsible with providing 25% of the project costs.

Fort Vermilion would be the focus of this funding through CCRF. Administration would suggest improvements to the downtown area, upgrading parks and tourism enhancements, highlighting the community’s history. Fort Vermilion has shown resilience as a community dealing with the aftermath of fires, floods and a pandemic in the last few years. Improving these areas will be an important step to revitalizing the Fort Vermilion community.

OPTIONS & BENEFITS:

Administration recommends that Mackenzie County applies for funding through the Canada Community Revitalization Fund.

If Mackenzie County applies for funding through CCRF, would Council agree to contributing 25% of the funding or more?

Author: S Gibson **Reviewed by:** B Peters **CAO:** _____

Administration suggests a scope of work along the following:

- Small river lookout deck by ATB
- Sidewalks within and to the new downtown area
- Wayfinding signage and historical points of interest (highlight short stories of FV heritage, and point people to the museum for more)
- Improvements to the park, including trails/connectivity
- Trail/connectivity to new park areas immediately east of downtown
- Trees and street furniture

COSTS & SOURCE OF FUNDING:

No cost estimates to date. Administration recommends submitting a grant application for a minimum of \$500,000.00 from CCRF with \$125,000.00 (25%) coming from Council.

SUSTAINABILITY PLAN:

Goal S2 The hamlets, rural areas and First Nations communities each have distinct and thriving cultures yet they are linked by common, broad economic and environmental conditions.

Strategy S2.1 Showcase the unique features of each of the County’s cultures throughout the County’s hamlets and populated rural areas.

COMMUNICATION / PUBLIC PARTICIPATION:

To strengthen the application the County would partner with community groups, and potentially businesses. Administration has had a preliminary conversation with the Fort Vermilion Board of Trade, and they are supportive of the project. Administration also recommends working with the Fort Vermilion Metis Local and Fort Vermilion School Division.

Subject: FW: RMA Fall Convention - Meeting with Minister of Municipal Affairs

From: Mike Decker <Mike.Decker@gov.ab.ca> **On Behalf Of** MA MSL Engagement Group

Sent: July 8, 2021 1:36 PM

Cc: Mike Decker <Mike.Decker@gov.ab.ca>

Subject: RMA Fall Convention - Meeting with Minister of Municipal Affairs

Dear Chief Administrative Officers:

We are writing to inform you of a potential opportunity for municipal councils to meet with the Honourable Ric McIver, Minister of Municipal Affairs, at the 2021 RMA Fall Convention, scheduled for November 23-26, 2021. It is our hope that these meetings will be in person.

We understand there may be newly elected officials on council and the meeting requirements may change following the municipal elections. However, should your municipality wish to meet with Minister McIver during the convention, please submit a request by email to MA.MSLEngagementGroup@gov.ab.ca no later than September 10, 2021.

In your meeting request, please be sure to include two specific policy items or issues your municipality would like to discuss with the Minister.

We generally receive more requests to meet with the Minister than can be reasonably accommodated over the course of the convention. To ensure suitable consideration of requests, municipalities should be mindful of the following criteria:

- ? Policy items or issues directly relevant to the Minister of Municipal Affairs and the department will be given priority.
- ? Municipalities located within the Capital Region can be more easily accommodated throughout the year, so priority will be given to requests from municipalities at a distance from Edmonton and to municipalities with which Minister McIver has not yet had an opportunity to meet.
- ? Meeting requests received after the deadline will not be considered for the convention, but may be considered for future meeting opportunities.

Meeting times with the Minister are scheduled for approximately 20 minutes per municipality. This will allow the Minister the opportunity to engage with as many municipal councils as possible. All municipalities submitting meeting requests will be notified at least two weeks prior to the convention as to the status of their request.

Municipal Affairs will make every effort to find alternative opportunities throughout the remainder of the year for those municipalities the Minister is unable to accommodate during the convention.

Sincerely,

Mike Decker/Stakeholder Relations Team
Municipal Affairs

RE: Renewal of the Joint Forest Management Agreement-FMA 0200040

Dear Minister

The Forest Industry has been a long-standing economic contributor to the Northwest Region of Alberta. As you are aware, Forest Management Agreement (FMA) 0200040 is jointly managed and provides access to timber for three operations located in Northwest Alberta. The renewal of the joint FMA and its fibre security is critical to the continued operations of Tolko Industries Ltd., for the continuous supply of coniferous timber for their sawmill, West Fraser Mills Ltd. for the continuous supply of deciduous timber for their OSB facility, and La Crete Sawmills Ltd. for the continuous supply of coniferous and deciduous timber for their sawmill operations.

These three Forest Manufacturing Facilities, all located in Northwest Alberta, employ approximately 700 full time employees in their mill operations and an additional 500 full time employees in their harvesting and reforestation operations. High Level, Fort Vermillion, La Crete, and the surrounding communities significantly benefit from these three Forest Management Facilities and their economic contributions.

The Forest Industry continues to diversify and stabilize the economy of our region. Mackenzie County would like to request your support for the renewal of the joint Forest Management Agreement which is so critical to the economic prosperity of our region.

Sincerely,

Josh Knelsen, Reeve
Mackenzie County

June 24, 2021

Dear Mayor/Reeve:

Ponoka Town Council is reaching out to other smaller rural communities like ours to voice our concerns regarding the COVID-19 pandemic. We wish to share with you our concerns for our business community as we believe you may be experiencing similar issues. We would also like to propose a solution for these concerns and are requesting your support.

Over the last sixteen months, our small town businesses have experienced an extremely tough rollercoaster ride amid a long string of lockdowns and restrictions. As we all know they, unlike urban businesses, already face a different kind of challenge because they do not have the larger population base that businesses in the larger cities can draw on.

Even now that restrictions are being lifted, it takes much longer for these small, rural businesses to recover and bounce back; and given that they have been hit with successive waves of shut downs over the past several months, the damage has been cumulative. We worry that a number of our small businesses may not survive. And we worry about the terrible impact that losing these businesses would have on our community considering they are an integral part of our town's economy. They not only run businesses, they are consumers too. They buy houses and pay taxes. They are also an important part of our social fabric, as many of them sponsor sports teams, coach our young athletes, and are leaders, friends and neighbours in our community. We are deeply concerned about the potential loss of these businesses.

In response to these concerns, we have begun writing letters to the Premier, our MLA, and our MP. We are requesting additional funding be given to rural municipalities. This money would be specifically earmarked for small businesses and distributed to them through municipal councils. Our position is that local municipal councils understand the unique needs of their communities and their businesses, and therefore are in the best position to distribute these additional dollars most effectively.

Our frustration with government has been that their actions and solutions always appear to be a one-size-fits-all measure with the emphasis tilted toward the larger cities in our province. We understand that we are all hurting, but we also can see that there is a tone deafness in particular when it comes to small businesses in rural Alberta. Our concern is that these small, rural businesses are the lifeblood of this province yet they have always contributed disproportionately more to our GDP than they have ever received back in compensation. They are struggling and hurting now. It is time we do something for them or we will soon find that not only will some of them be gone, but small towns in this province may start to disappear along with them.

.../2

Rural Municipalities

June 24, 2021

Page 2.

Ponoka Town Council is asking for your support by simply requesting that you join us in writing letters to our Premier, your MLA and MP requesting more financial help for small, rural businesses. This will remind our provincial and federal governments that the rural communities in this province are hurting, and hurting badly.

Finally, please feel free to contact the Mayor's Office in the Town of Ponoka for further discussion on how we could collectively pursue other possible solutions in the future.

Yours sincerely,

Ponoka Town Council.

Guests, Presenters and Observers:

- Votham Anastasiadis, Alberta Counsel
- Paul McLauchlin, President of RMA
- Kara Westerlund, Vice-President of RMA
- Jason Schneider, RMA
- Kathy Rooyakkers, RMA
- Soren Odegard, RMA
- Honorable Travis Toews, MLA Grande Prairie-Wapiti
- Tracy Allard, MLA for Grande Prairie
- Dan Williams, MLA for Peace River
- Todd Loewen, MLA for Central Peace-Notley

Secretariat:

- Jutta Rohrschach, A/Executive Director, JEI
- Pamela Witte, Director, JEI
- Baiku Acharya, Agency Relations Advisor, JEI
- Lisa Williams, Administrative Assistant, JEI

1. Call Membership Meeting to Order

Chair, Jim Rennie, welcomed attendees and called the NAEL meeting to order at 1:05PM. This meeting will be recorded, if there are no objections, no objections noted.

2. Adoption of Agenda

It was **MOVED** by Myrna Lanctot **THAT** the agenda be adopted as presented.
CARRIED

3. Adoption of Consent Agenda

- 3.1. Draft NAEL Meeting Minutes – February 5, 2021
- 3.2. Financial Statement - May 2021
 - The account balance is \$17, 044.94. Unchanged from the last meeting.
- 3.3. Sent - Thank you letters – February 5, 2021 meeting
- 3.4. Sent- Site C Dam letter – Hon. Jason Nixon, Minister of Environment and Parks
- 3.5. Sent - Invitation letters, June 11, 2021
 - 3.5.1. Hon. Devin Dreesen, Minister of Agriculture and Forestry
 - 3.5.2. Hon. Ric McIver, Minister of Municipal Affairs
 - 3.5.3. Northern MLAs in NAEL region
- 3.6. Received – Letter from Hon. Jason Nixon, Minister of Environment and Parks re. Site C Dam

- 3.7. Received – Letter from MLA Williams on Site C Dam
- 3.8. Received – Email from MLA Loewen on relocation of flood mitigation trailer to north
- 3.9. Received - County of Northern Lights’ letter to Alberta Management Agency regarding flood mitigation trailers
- 3.10. Received – County of Grande Prairie’s letter to NAV Canada regarding review of air traffic services
- 3.11. Received- Correspondences from MLA Allard
- 3.12. Received -Members’ roundtable updates – Received by June 4, 2021. No updates were received.
 - 3.12.1. Updates received after this date will be included in the post-meeting package.

It was **MOVED** by Carolyn Kolebaba **THAT** the consent agenda be adopted as presented.
CARRIED

4. Chair Updates

This item is moved up from agenda item #5 to #4 as the meeting was ahead of schedule.

4.1. NAEL Health Survey Results

- Key highlights of the survey:
 - The report includes 21 communities’ responses, of which, 8 rural and 13 urban municipalities responded.
 - The survey included six questions and there was a good response rate for each question, ranging from 100% to 67%.
 - The responses were mostly qualitatively analyzed. Key health issues and solutions identified by respondents include:
 - Community Health Centers are the least accessible health facilities;
 - Specialized care (including maternal, cancer and surgical care) is challenging to access;
 - General Practice Medical Doctors are needed;
 - Health policy and / or the delivery of services may be improved by:
 - Expanding the use of existing facilities;
 - Refining incentives for recruitment, and retention of health care professionals;
 - Targeting education policies to promote rural practices; and
 - Decentralizing the provincial health authority or complimenting it with a regional advisory board.
 - Members discussed on what can be done with the survey report using the leverage that they have.
 - The report can be shared with key related stakeholders through NAEL, as a collective voice of 40 communities is stronger than coming out from each individual community.

It was **MOVED** by Myrna Lanctot **THAT** the NAEL health survey report be accepted as information and shared with Premier, Alberta Health (Minister of Health), Alberta Health

Services, the MLAs from the NAEL region, Regional Health Advisory Councils in the NAEL region, NADC, RhPAP, RMA, and AUMA and that the Minister of Health be invited to attend the next NAEL meeting.

CARRIED

5. Presentation from Métis Nation of Alberta, Region 6 – NAEL Membership Request

Presenter: Carol Ridsdale, President of Métis Nation of Alberta (MNA), Region 6.

- President Ridsdale was unable to attend the meeting as planned due to a last minute urgent task, and Votham Anastasiadis from Alberta Counsel provided a high level update on the MNA, Region 6.
- Key highlights from the presentation included:
 - Alberta Counsel represents MNA, Region 6 to develop their economic and social opportunities, especially in the north and believe that the members of Region 6 would benefit from having representation at NAEL.
 - MNA, Region 6 has a board of eight members including a president and a vice-president.
 - President Ridsdale is in her first term, she was a vice-president for many years before becoming president.
 - They are part of the parent organization Métis Nation of Alberta, consisting of six regions across Alberta, with well over 50,000 members. MNA, Region 6 includes Grande Prairie, Peace River, Fort Vermilion, Fairview, Valleyview and Manning.
 - Their priorities include economic development, getting Métis people to work and supporting housing and mental health of their members.
 - MNA, Region 6 is the only Indigenous recipient this year for the Civil Society Grant award. There were more than 500 applicants and 21 selected.
- A brief Q&A session followed the presentation and included the discussions around value of MNA Region 6 joining the NAEL membership.
 - Members look forward to meeting to discuss and collaborate for issues and opportunities with the MNA Region 6 representatives in future.

It was **MOVED** by Terry Ungarian **THAT** the request of Métis Nation of Alberta, Region 6 that they be a NAEL member be accepted.

CARRIED

6. Regional Updates/Standing Item

6.1. Species at Risk

- Keep as a standing item.
- Alberta has entered a Conservation Agreement (Section 11 agreement) under the *Species At Risk Act* with the Federal Government, which gives the province control of conservation measures. The federal mandate has not changed; they are still targeting increasing conservation lands.

- Vice Chair and Reeve Beaupre suggested that the Minister of Alberta Environment and Parks or a representative can be invited in a future NAEL meeting to provide an update on the mandated targets.
- Mayor Lymburner mentioned premier Kenney's talk the other night regarding the Section 11 Agreement that the province has been able to remove some control from the federal government and the caribou situation is now under the provinces' control.

6.2. COVID-19

- Keep as a standing item
- Communities struggling with empty buildings and businesses are dealing with serious recovery.
- Our municipalities need continued support in 2021 like the 2020 COVID-19 one-time grant for the closed facilities.
- The province and AHS has been calling on municipal leaders to try to encourage their communities to get vaccinated.
 - Rural communities are behind in vaccination; the current average is around 33%. The province is looking at a 70% goal to move into the third stage of opening.
 - As elected leaders, we want to get our communities out of this situation and provide with as much information as we can and leave the constituents to make their own decision.

6.3. Northern Agriculture Updates

- Pricing of the crops is a key issue for northern farmers.
 - Agricultural communities in the north, face a lot of challenges that are out of their hands such as natural circumstances and market price.
- Reeve Kolebaba mentioned that PREDA is doing a study on transportation and costs in the region and is willing to share the high-level findings with NAEL once the report is completed.
 - Transportation is one of the biggest costs for farmers when it comes to getting their product to the market and receiving the tools and products they need.

6.4. Other – TBD by NAEL Members

- Site C Dam
 - Reeve Ungarian provided an update on the Site C Dam that a delegate from the project attended in the last County of Northern Lights council meeting. The 30-minute presentation included a PowerPoint presentation and they talked about the Milburn Report (a report on Site C project review by Peter Milburn, Special Advisor to the BC Ministers of Finance and Energy, Mines and Low Carbon Innovation) and the fiscal problems. They reassured that they have addressed all the geotechnical problems and will improve their communications with us.
- Highway Maintenance
 - Mayor Hailes mentioned that the roads are in terrible condition in the northern region and they need regular maintenance.

- Reeve Kolebaba shared that the Construction Association are asking Albertans to take pictures of their highways and send them their way so that the association can campaign.
- Flood Mitigation Trailer
 - Mayor Lanctot thanked municipalities for sending letters on the trailer and that Falher received one which is situated here in the north and is accessible.
 - Deputy Mayor Manzer also thanked for the efforts and informed that the trailer has arrived in Peace River when the ice was melting.
- Funding Disasters
 - Deputy Mayor Manzer mentioned changes to the province’s Disaster Recovery Program (DRP). The province is sharing the financial risk and liability of disaster expenses through cost-sharing mechanisms, thresholds, residential funding limits, or restrictions to assistance in floodways, as part of its disaster assistance program. Alberta has implemented a 90:10 cost-sharing arrangement with local governments and private-sector applicants, which include homeowners, residential tenants, small business owners, landlords, agriculture operations, condominium associations and not-for-profit organizations and cooperatives.
- Rest Areas
 - Mayors Lymburner and Hailes mentioned Alberta Transportation’s plan of developing rest areas between communities as discussed with the Transportation Minister. The local communities expressed their concerns that it would take business away from them. The project is on hold for now.

It was **MOVED** by Vern Lymburner **THAT** NAEL requests clarification from the Premier’s office as to what the Premier was referencing in regards to the control over caribou situation/species at risk and what powers the province has now.

CARRIED

It was **MOVED** by Jim Hailes **THAT** NAEL approaches the Minister of Transportation and the Regional Director of Transportation to allocate more funds for the maintenance and upkeep of highways in northern Alberta.

CARRIED

It was **MOVED** by Elaine Manzer **THAT** the NAEL seeks a presentation on the aspects of DRP changes from the Alberta Emergency Management Agency, the agency that leads and oversees all emergency and disaster prevention, preparedness and responses in Alberta.

CARRIED

7. Northern Alberta Development Council (NADC) Updates

Presenter: NADC Chair, David B. Hanson – MLA for Bonnyville-Cold Lake- St. Paul

MLA Hanson was unable to attend.

8. Attending Northern MLA Updates

Presenter: Todd Loewen, MLA for Central Peace-Notley

- Flood Mitigation Trailer
 - o Happy to hear that the flood mitigation trailer made it way to the north after the last meeting. I have spoken with the Minister McIver about that.
- Rural Doctor Discussion
 - o The Alberta Health Services should know how many doctors are required in each community. The plan needs to have a timeline or an end date to have those health professionals in place in our rural communities.
- Caribou Section 11 Agreement
 - o The Alberta government did sign off on Section 11 with the Federal government, which will have wide reaching ramifications. It would be good for NAEL to get more information/clarification.
- Rest Areas
 - o It is good to hear that the local municipalities are getting the government back on track. There are communities that are struggling right now and to put up businesses in-between those communities would be counterproductive.

Presenter: Hon. Travis Toews, MLA Grande Prairie-Wapiti and Minister of Finance

- COVID-19
 - o The opening plan has some hard metrics and very optimistic that it is going to proceed on the anticipated timelines.
 - o The first doses are slowing down, so we are encouraging everybody who are interested to be vaccinated. Second doses have been sped up, due to the availability of the vaccines.
 - o As we start to get past COVID, our attention will be singularly on economic recovery and growth. It is going to be critically important to position the Alberta economy for investment attraction and growth. Economic recovery is not only important to get Albertans back to work and our businesses back but also for the long term fiscal health of the province.
- Energy
 - o The demand globally for energy products is rising faster than production is responding, with a West Texas Intermediate (WTI) price over \$70.00. As well, natural gas prices are high.
 - o Alberta energy companies are strengthening their balance sheets, which struggled last year. They are starting to expand their capital expenditure plans and are expecting an additional three billion dollars in capital expenditures.
 - o The Alberta government advocated to the Federal government for an investment tax credit, which is of significance for carbon capture and storage. That notation was included on the budget, but the federal budget did not include a definitive dollar figure. There will

- be discussions/negotiations in the upcoming days, weeks, and probably months. The province will be advocating for at least and equivalent to the Q45 approach in the US.
- Hydrogen Facility in Edmonton
 - o Premier announced a new investment for Edmonton Air Products. It is a 1.3 billion dollar investment for setting up a blue hydrogen facility.
 - o Blue hydrogen production uses natural gas and the carbon will be captured and stored which is very positive for upstream natural gas industry and our municipalities in the north who also have this asset.
 - o It will also improve our investment narrative that Alberta can continue to attract capital.
 - o This project will create 2,500 jobs to build and 100s of jobs to operate.
 - Venture Capital Investment
 - o Doubling the venture capital investment in the province of Alberta in 2020 was exceptional. Other provinces across the nation actually saw a decline; we were an anomaly in terms of investment attraction. 2021 is starting out even stronger.
 - Petrochemical
 - o The Nautical project in Grande Prairie region has been moving forward and making progress.
 - o The new Alberta petrochemical incentive program is an improvement over the petrochemical diversification program that it replaced. There is significant interest by the project proponents in this program.
 - Agricultural
 - o While 2020 was still a tough year for some farmers in this region, the province in general had a good year in agriculture, and 2021 is beginning well with bankable high prices.
 - o The province is seeing some additional processing and manufacturing investment.
 - Forestry
 - o Forestry is having the best year ever, in terms of pricing.
 - Caribou – Species at Risk
 - o This is a challenging issue for the province.
 - o Chapter 11 gives the province more ability to chart its own course.
 - o There are a number of planning committees working together with the forestry companies and the energy industry to find a path forward.
 - o The province needs to find a way to ensure that there is adequate habitat.
 - A brief Q&A session followed after the Hon. Toews’ updates. The discussions included the following:
 - Video Lottery Terminal (VLT) allocation
 - o Businesses with potential and capacities to operate VLT machines in the northern communities would be able to generate revenue if the allocation process of the machines by the Alberta Gaming and Liquor Commission (AGLC) were sped up for them. AGLC has over 500 VLTs in their warehouse to be allocated. Minister Toews to follow up with the AGLC.

- Unpaid oil and gas taxes
 - o There is about 240 million dollars owed by energy companies on taxes. Municipalities have tight budgets and they have not heard any updates from the province on this. 40% of those taxes represent the companies that are still operating. Minister Toews to have discussion with Minister McIver on this topic for more insight into this.
- Permits for mining industry
 - o There are mining industry members who are having challenges obtaining permits for iron ore, palladium and lithium. There is a momentum to diversify and find investment attraction opportunities with the government, but when it comes to the bureaucratic level, there seems to be resistance. The process to obtain even the non-disclosure agreement (NDA) of investment is long. Minister Toews asked for additional details about the interested proponents and their pinch points to be able to advocate on behalf of them to the applicable ministry.
- The Internet Access
 - o Reliable access to the Internet has become even more critical to the rural communities with the current virtual format of doing work including students' studies. This has been talked about for a long time but not much has been done in getting this to all the communities. It is now time to invest in reliable internet. Minister Toews shared that Service Alberta is in the final stage of coming forward with an ambitious and bold plan for rural connectivity that will address these issues significantly.
- Grants and Funding for municipalities to fight COVID-19
 - o Continued support to the municipalities is needed to help cover incremental costs and reduced revenues associated with the pandemic as the COVID lasted longer than anticipated.
 - o There is no plan on adding anything to the operating support transfer as it was planned to be a one-time funding program. The pandemic is however, disrupting activities and businesses are hurting. This year, the province has pulled forward the capital funding by over 200 million dollars for municipalities ensuring they have some additional capital funding this year. However, this capital funding will be decreased while municipalities look over the next 3 year span.

Presenter: Tracy Allard, MLA for Grande Prairie

- Broadband
 - o Met with Minister Glubish regarding rural broadband and discussed what we are going to do to ensure that we get reliable connectivity. Broadband is vital and critical for business, education and for life like other key infrastructure.
- Accessibility for persons with disability
 - o MLA Allard is currently in a wheelchair and provided her perspective of what it is like to not have access to basic services such as transportation, and getting in and out of public buildings.

Presenter: Dan Williams, MLA for Peace River

- Infrastructure
 - o The summer construction season is going to be significant for the Northwest with approximately 80 million dollars of transportation infrastructure investment in the Peace Region.
 - o We have the potential for a 200 million dollar bridge across the Peace River. We are making sure we work out the details with our partner Métis settlement in Paddle Prairie. If, for some reason we need to take a 2nd look, there are options for North and South of Paddle Prairie. The government is committed to moving forward with the fee-for-service transportation across Peace River, potentially open for traffic crossing as early as the winter of 2025.
- Flood Mitigation
 - o We are working with Fort Vermilion town site flood prevention and with Mackenzie County for more funding beyond the initial flood mitigation dollars.
 - o The flood mitigation trailer has work to be done, but there is movement on that.
- New School Projects
 - o School projects in the north such as in Manning and Mackenzie County are moving forward.
- La Crete Maternity Centre
 - o The pre-construction work is starting next year.
- Wolverine pipeline is moving.
- Working with High Level to have an emergency centre there.

It was **MOVED** by Donna Buchinski **THAT** MLAs Allard, Loewen, Toews and Williams, be sent a letter of thanks [including outstanding questions].

CARRIED

9. Next meeting

9.1. Location, date and agenda items

- September 17 or September 24 (from 1:00 – 3:00PM) were proposed for the next virtual meeting.
- Members discussed the options of having the next meeting in-person.

It was **MOVED** by Carolyn Kolebaba **THAT** the next NAEL meeting be held in-person in a facility that also has high-speed internet access to support virtual attendance opportunity on Friday, September 17, 2021 and time/location be determined by expression of interest poll in mid-July.

CARRIED

10. Adjournment

It was **MOVED** by Jim Rennie **THAT** the NAEL meeting be adjourned at 2:59PM.

CARRIED

Member Roundtable Updates

Please note below any updates that you want to record in the meeting package to be shared with the NAEL members. It is recommended that maximum top three updates are included so that it allows all member communities share and learn ideas and best practices efficiently and in less space. Items will be recorded as they are written and will be included in the meeting package.

If you have items you wish to speak to during the meeting on June 11, 2021 (online) please email northernalbertaelectedleaders@gmail.com to arrange time on the agenda.

Member Community: Northern Sunrise County

Contact: Carolyn Kolebaba, Reeve

1	NSC continues to advocate for the unpaid oil & gas taxes and encourages municipalities to continue to work with their association (RMA or AUMA) and the province. Legislative change is needed. Media Release attached to Roundtable Update Form.
2	NSC in partnership with Telus will be installing two cell towers in Marie Reine and St. Isidore to help improve cell service in those 2 hamlets this year.
3	NSC continues to expand on it's day use park areas this summer. We look forward to seeing the installation of a wheelchair accessible dock and paved trails at Cecil Thompson Park and an additional 6 sites and a bathroom facility constructed at the popular Murphy's Flats Day Use area.

Please email your completed update to the NAEL at northernalbertaelectedleaders@gmail.com By June 4, 2021, 2:00 PM.

It is recommended that maximum top three updates are included so that it allows all member communities share and learn ideas and best practices efficiently and in less space. Items will be recorded as they are written and will be included in the meeting package.

If you have items you wish to speak to during the meeting on June 11, 2021 (online) please email northernalbertaelectedleaders@gmail.com to arrange time on the agenda.

Member Community: Village of Rycroft

Contact: Mayor James Verquin

1	Urban Systems and Tri-line Contracting Services from Peace River started the sewer lift station upgrade capital project the week of May 10. The project is moving along and we expect the job to be complete in June. We received an Alberta Municipal Wastewater grant for the project.
2	MPA Engineering advertised the tender for our weir/water intake repair capital project . We had 10 bids. MDP Oilfield Ltd. from Peace River was awarded the contract on June 2 and will complete the work in August. We received a Disaster Recovery Program grant for the project.
3	New Line Industries will be re-lining a length of sewer pipe on 52 nd street in June. We received a Municipal Sustainability grant for the project.
4	We sent in our MOST Grant (Covid funding) Statement of Financial Expenditures to Municipal Affairs. We sited a non-collection of \$108,708 in reduced revenue (unpaid 2020 taxes to March 31, 2021) as our claim for the \$66,971 grant.
5	Rycroft will have a Municipal Accountability Program Audit in July

Please email your completed update to the NAEL at northernalbertaelectedleaders@gmail.com By June 4, 2021, 2:00 PM.

Member Roundtable Updates

Please note below any updates that you want to record in the meeting package to be shared with the NAEL members. It is recommended that maximum top three updates are included so that it allows all member communities share and learn ideas and best practices efficiently and in less space. Items will be recorded as they are written and will be included in the meeting package.

If you have items you wish to speak to during the meeting on June 11, 2021 (online) please email northernalbertaelectedleaders@gmail.com to arrange time on the agenda.

Member Community: County of Grande Prairie

Contact: Lesley Nielsen-Bjerke, Communications Manager 780-814-5090

Budget 2021: Smart and Compassionate

At our final budget deliberations in April, Council approved no tax rate increase for 2021. While the County must still collect municipal taxes to fund essential services like fire, waste management, road maintenance and water supply, we hope the hold on the tax rate will provide some relief. This is a budget that looks at the now – it prioritizes maintaining essential services and programs and supports initiatives to help decrease the burden on our residents during these challenging times. It’s also forward-thinking, ensuring our investments support community sustainability and quality of life today and in the future.

Budget 2021 investment highlights include:

- About 56 per cent of the capital budget for road and bridge projects.
- \$6 million for recreation; community; culture; library; seniors and special needs transportation; and FCSS grants to community organizations and neighbouring municipalities, as outlined in our Intermunicipal Collaboration Framework agreements.
- \$6.7 million for critical infrastructure projects. This includes environmental improvements at the Clairmont Centre for Recycling and Waste Management as well as new infrastructure to ensure safe and quality drinking water in La Glace.
- \$1.1 million for new or upgraded Regional Fire Service equipment to enhance public safety.

Managing surface water remains a priority of Council’s, after dealing with extensive flooding in 2018 and 2020. A policy for surface water management is now in place to help prevent future issues. Along with significant investments in road projects and annual work to reduce the risk of flooding along County roadways, the 2021 budget included \$395,000 for Ditch Rehabilitation, \$20,000 for Storm Drain Maintenance, and an additional full-time equipment operator in Public Works.

Being mindful of circumstances and guidelines related to the pandemic, the County continues to create and promote safe opportunities to engage families and people of all ages this summer. Council approved waiving permit and inspection fees for County-based restaurants and food service businesses to install an outdoor patio this summer, providing more spaces for families to enjoy.

1

<p>2</p>	<p>Welcome Hythe!</p> <p>In March, Hythe residents voted to dissolve and become a hamlet in the County of Grande Prairie, as the Village is no longer viable and able to continue operating on its own. We extended a warm welcome to Hythe citizens. They have long been our neighbours and friends, and now will be a part of our community.</p> <p>The next step is for Provincial Cabinet to approve the dissolution with a formal Order in Council. At that time, the Village of Hythe will be officially dissolved. We do not yet know when that will occur but are already working with Hythe Administration to ensure a smooth transition and provide high quality municipal services to our new hamlet.</p>
<p>3</p>	<p>Regional Collaboration</p> <p>There are many ways the County works with our neighbouring municipalities. One of those ways – our Intermunicipal Collaboration Framework agreements (ICFs) – formalize how we will share resources and services, with each of those partnerships tailored to support the unique needs and priorities of each community.</p> <p>The end of 2020 marked the successful completion of six of our required seven ICFs with our neighbours. Through collaborative discussions, we have now completed ICFs with Birch Hills County, Saddle Hills County, MD of Greenview, and the towns of Sexsmith, Beaverlodge and Wembley.</p> <p>At the beginning of May, we announced that the County and City were moving forward with mandated arbitration to reach an agreement on our joint ICF. While the City and County identified areas of further collaboration over the last few months, we were not able to reach an agreement related to cost-sharing for services within the specified timeline. Our next step is to present our case to an arbitrator, alongside the City, to finalize the framework.</p>

**DRAFT MINUTES
 February 5, 2021
 WebEx/Teleconference**

Attendees

Marcel	Auger	MD of Opportunity
Rick	Bastow	Birch Hills County
Amber	Bean	Clear Hills County
Leanne	Beaupre	County of Grande Prairie
Donna	Buchinski	Town of Falher
Quinton	Bufford	Village of Nampa
Tom	Burton	RMA
Jackie	Clayton	City of Grande Prairie
April	Doll	Town of Manning
Roxann	Dreger	Village of Rycroft
Michelle	Farris	Town of Rainbow Lake
Sandra	Fox	MD of Fairview
Allan	Georget	Town of Spirit River
Daryl	Greenhill	Town of Fairview
Jim	Hailes	Town of Fox Creek
Cindy	Hockley	Village of Berwyn
Janet	Jabush	AUMA
Peggy	Johnson	Municipal District of Fairview
Murray	Kerik	Municipal District of Lesser Slave River
Carolyn	Kolebaba	Northern Sunrise County
Myrna	Lanctot	Village of Donnelly
Boyd	Langford	Town of High Level
Vern	Lymburner	Town of Valleyview
Elaine	Manzer	Town of Peace River
Gerald	Manzulenko	Birch Hills County
Ken	Matthews	Big Lakes County
Crystal	McAteer	Town of High Level
Cary	Merritt	Saddle Hills County
Cindy	Millar	Northern Sunrise County
Brian	Panasiuk	Town of High Prairie
Kate	Potter	Town of Sexsmith
Len	Racher	Mackenzie County
Bob	Regal	Town of Grimshaw
Jim	Rennie	Woodlands County
Rod	Risling	Town of High Prairie

Allan	Rowe	Clear Hills County
Greg	Rycroft	Town of Manning
Gary	Rycroft	Town of Beaverlodge
Dale	Smith	MD of Greenview
Rita	Therriault	MD of Smoky River
Peter	Thomas	Village of Rycroft
Terry	Ungarian	County of Northern Lights
Theresa	Van Oort	County of Northern Lights
Joulia	Whittleton	County of Grande Prairie
Bob	Willing	MD of Peace

Guests, Presenters and Observers:

- Marcel Maure, Fire Chief of MD of Smoky River
- Brian Turpin, President of Victim Services Alberta
- Terry Ungarian, Reeve for County of Northern Lights
- Al Kemmere, Senior Advisor, Alberta Counsel
- Paul McLauchlin, President of RMA
- Tracy Allard, MLA for Grande Prairie
- Dan Williams, MLA for Peace River
- Pat Rehn, MLA for Lesser Slave Lake
- Todd Loewen, MLA for Central Peace-Notley
- David B. Hanson, MLA for Bonnyville-Cold Lake-St. Paul, Chair for Northern Alberta Development Council (NADC)

Secretariat:

- Kim Pinnock, Manager, Northern Development
- Baiku Acharya, Sr. Northern Development Officer, Northern Development
- Lisa Williams, Administrative Assistant, Northern Development

1. Call Membership Meeting to Order

Chair, Jim Rennie, welcomed attendees and called the NAEL meeting to order at 1:02PM. This meeting will be recorded, if there are no objections, no objections noted.

2. Adoption of Agenda

It was **MOVED** by Donna Buchinski **THAT** the agenda be adopted as presented.
CARRIED

3. Adoption of Consent Agenda

3.1. Draft NAEL Meeting Minutes – November 27, 2020

- Mayor Hailes, Town of Fox Creek, suggested to correct the minutes and add his name under attendees' as he attended the meeting.
- 3.2. Financial Statement - January 2021
 - The account balance is \$17, 044.94. Unchanged from the last meeting.
- 3.3. Sent- Invitation to Hon. Devin Dreeshen, Minister of Agriculture and Forestry

It was **MOVED** by Myrna Lanctot **THAT** the Minister Dreeshen be re-invited to attend the next NAEL meeting.

CARRIED

- 3.4. Sent - Thank you letters – November 27, 2020
- 3.5. Sent - Invitation to northern MLAs in NAEL Region
- 3.6. Received - Letter from County of Northern Lights on Rural Health Care
- 3.7. Received - Letter from Big Lakes County on Doctor Recruitment in Northern Alberta
- 3.8. Received - Village of Rycroft's letter to NAV Canada
- 3.9. Received - County of Northern Lights' letter to NAV Canada
- 3.10. Received - Correspondence from MLA Allard
- 3.11. Received - Members' Roundtable Updates – Received by Feb 1, 2021
 - No updates were received. Updates received after this date will be included in the post meeting package.

It was **MOVED** by Carolyn Kolebaba **THAT** the consent agenda be adopted with the corrections identified.

CARRIED

4. Flood Mitigation Trailer – MD of Smoky River

Presenter: Mr. Marcel Maure – Director of Protective Services/Fire Chief

- Key highlights from the presentation included:
 - Northwest Alberta has been facing overland flooding. Flooding occurred throughout the north in 2020.
 - Mitigation is essential to protect property and infrastructure from the flooding.
 - A flood mitigation trailer gives communities the ability to protect some assets. There are trailers available in the southern municipalities of the province.
 - Early last year, a request was submitted and was accepted for a temporary trailer to be assigned to the northwest.
 - A request submitted to have a trailer in the northwest full time was rejected.
 - A flood mitigation trailer was used to assist and protect infrastructure in the Peace River, MD of Smoky River, Big Lakes County and Sexsmith floods.
 - Combined 11 homes, 1 condominium complex and the Telus building were saved.
 - Following options were suggested for consideration :

- The elected leaders to request that provincial leaders station a trailer in the north: acquire a trailer or transfer one of the three trailers from the south to the north;
- Communities in the northwest gather funds and create a trailer; or
- One agency purchases a trailer and charges for the use.
- A brief Q&A session followed the presentation and included the discussions around cost of the trailer and how funding supports in acquiring trailers for northwestern municipalities can be accessed including from the provincial government and industry partners.
- Chair Jim Rennie asked the attending MLAs to provide their thoughts on this during their updates.
- The presentation slide decks are to be forwarded to the NAEL members.

It was **MOVED** by Jim Hailes **THAT** NAEL send a letter to the appropriate ministries to ask for clarification on the situation and to put forth our case to have one trailer in the north.

CARRIED

It was **MOVED** by Elaine Manzer **THAT** Fire Chief Maurie be sent a letter of thanks [including outstanding questions].

CARRIED

5. Updates from Victim Services Alberta- MD of Smoky River

Presenter: Mr. Brian Turpin – President, Victim Services Alberta

- Key highlights from the presentation included:
 - The legislation change through the Bill 16: *Victims of Crime Act to the Victims of Crime and Public Safety Act*, is impacting the victims' crime fund. Previously the funds would come from surcharges, now the government is taking the victims' fund and using a portion to hire new police officers and crown prosecutors.
 - Victim services is currently under review of its models of service delivery and funding. Some unprecedented cuts are happening to the funding, even though it is a separate fund and sustainable on its own.
 - Over the last six months many programs have been cut, including training.
 - The new regulation will allow no more than \$1,000 per unit across the province; previously in Peace River, the budget was \$27,000.
 - Victim Services is hurting financially across the province, sadly the money is there for proper funding. The government is deciding to use the money for crime reduction.
 - Consultations have been happening with the MLAs and government around support.
- A brief Q&A session followed the presentation and included the discussions around value of victim services supports to the vulnerable ones, the impacts causing by the funding changes in northwestern municipalities and how NAEL, RMA and AUMA can support advocating for the Victim Services.

- Chair Jim Rennie asked the attending MLAs to provide their thoughts on this during their updates.
- President Turpin to forward available materials on this to share with the NAEL members.

It was **MOVED** by Michelle Farris **THAT** NAEL request a letter from Victim Services that NAEL, AUMA and RMA members can use to further promote and advocate on behalf of Victim Services.

CARRIED

It was **MOVED** by Donna Buchinski **THAT** Victim Services President Turpin be sent a letter of thanks [including outstanding questions].

CARRIED

6. Site C Dam Project and the Safety Concerns

Presenter: Terry Ungarian – Reeve, County of Northern Lights

- Key highlights from the presentation included:
 - BC Hydro is constructing an earth fill hydroelectric dam, the third one in BC on the Peace River known as Site C Dam.
 - Concerns about the stability of the dam have recently come to the attention of our council.
 - It is being constructed on unstable terrain.
 - In 1980s, BC Utilities Commission indicated that BC did not need the electricity and stated that the dam would have negative social and environmental impacts.
 - The geotechnical risks are the key reasons why BC Hydro Board rejected the project in the early 1990's.
 - It is facing massive cost overruns, the majority due to geotechnical problems and water seepage.
 - On October 21, 2020, it was recorded that the project faced serious geotechnical problems due to its weak foundation and stability of the dam was at significant risk.
 - A major engineering change was made in the configuration from a C formation to an L in an effort to avoid some shield based soil conditions.
 - Municipalities along the banks of Peace River will surely suffer if the structure was to fail. The effects on the residents and on the economy would be catastrophic.
 - Would like answers or assurances from our provincial government on their actions in respect to this project.
- A brief Q&A session followed the presentation and included the discussions around importance of transparency and conversations that happened between the two provinces considering the impacts of construction on the communities along the Peace River.
 - County of Northern Lights can bring these concerns forward to the upcoming RMA convention and have a motion put on the table.
- Chair Jim Rennie asked the attending MLAs to provide their thoughts on this during their updates.

- Reeve Ungarian to forward his presentation to share with the NAEL members.

It was **MOVED** by Carolyn Kolebaba **THAT** County of Northern Lights and RMA to bring forward any opportunities for information as well as requests that NAEL could share.

CARRIED

It was **MOVED** by Myrna Lanctot **THAT** Reeve Ungarian be sent a letter of thanks [including outstanding questions].

CARRIED

7. NAEL Chair Update

7.1. Health Care Concerns

- Chair Jim Rennie mentioned that there are different concerns about healthcare in the region and proposed that the secretariat survey NAEL municipalities on health issues considering the followings in the survey questionnaire:
 - health workforce challenges;
 - challenges facing your communities' availability and access to health services; and
 - solutions your communities would like to see communicated to Alberta Health and Alberta Health Services.
- Members discussed various health issues facing rural and northwest Alberta including health professionals that are short in the region. They advised the survey be completed by March 15, 2021 focusing both on capturing specific issues and providing solutions.
- Big Lakes County sent a letter regarding health care concerns, specifically for our area, including how our services have steadily gone downhill with the policy changes such as move to regionalization and then to centralization.

It was **MOVED** by Myrna Lanctot **THAT** the NAEL secretariat survey NAEL members to identify and summarize health related issues facing NAEL member municipalities.

CARRIED

7.2. NAV Can Update

- NAEL has forwarded the members a sample template letter for support for northern regional air services.
- Town of Peace River Deputy Mayor, Elaine Manzer mentioned that the Peace River Airport is under new management led by five regional business people with airport connections, who took over managing the airport on January 1, 2021 for two years under the same financial support of the previous management agreement.

7.3. Alberta Counsel Update

- Chair Jim Rennie mentioned that the one-year contract, which NAEL was going to use Alberta Counsel to advocate on our behalf including face-to-face meetings, has expired without much happening due to COVID-19.
 - Alberta Counsel has reassured NAEL that they will extend the contract period for one year.

Presenter: Al Kemmere, Senior Advisor, Alberta Counsel

- Key highlights from the presentation included:
 - Alberta Counsel was formed in 2015 as a firm for advocacy, information sharing and engagement and for providing legal services for a variety of clients.
 - Alberta Counsel created a balance when there was a gap on how to communicate and become engaged with the government.
 - Key issues Alberta Counsel is working on are ID 349, transportation, infrastructure projects, water and wastewater projects, health care, economic development.
 - Alberta Counsel provides information sessions, does polls, sends out newsletters, reviews the provincial budget, and sends out that information based on their perspective to name a few things.
 - Alberta Counsel can advocate on the issues facing northern Alberta such as health care, transportation, new rail, policing costs, oil and gas development, caribou, municipal funding and unpaid taxes.
- A brief Q&A session followed the presentation discussing trend over the last three years on the peoples' support on political parties in Alberta.
- Senior Advisor Kemmere to forward his presentation slide decks to share with the NAEL members.

It was **MOVED** by Carolyn Kolebaba **THAT** NAEL accept Mr. Kemmere, Senior Advisor, Alberta Counsel's report as information and send a letter of thanks [including outstanding questions].

CARRIED

Questions for MLAs' consideration

- The Health Care Survey
- Site C dam in British Columbia
- Victim Services Funding
- Flood Mitigation Trailer

8. Northern Alberta Development Council (NADC) Updates

Presenter: NADC Chair, David B. Hanson – MLA for Bonnyville-Cold Lake- St. Paul

- Flood Mitigation
 - Put a call into the Chief of staff at Municipal Affairs; and was waiting to hear back.
- Victim Services Funding

- Heard some concerns when the Bill 16 first came forward, but have not heard anything locally recently. Perhaps one of the other MLAs can provide an answer on that.
- Site C Dam
 - Left this to MLA Allard and MLA Loewen to comment on the dam.
- ID 349
 - It has been ongoing for 12 years and involves funding from oil and gas revenue that was not shared properly in an Improvement District. The Minister signed off the agreement with all the municipalities involved in November.
- NADC Update
 - NADC will be meeting February 10 and 11, 2021.
 - The NADC is focusing on the development of northern corridors as part of key infrastructure needed to facilitate access to new markets and opportunities for further development within the region.
 - The Council is working on developing a northern strategy that not only identifies the issues facing the north, such as developing a multi-modal economic corridor including affordable and accessible broadband, but recommends an action plan for Council, government and the region around economic diversification, workforce development and community sustainability.
 - With a renewed and reinvigorated Council, we are eager to hear from you and to understand how we can best position the north for both recovery and growth.
 - Chair looks forward to providing an update on our progress and some additional information around regional engagements for the northern strategy in the coming weeks.
- Northern Health Care Challenges
 - The Minister of Health has asked for a review of the 2015 Starkey Report, a comprehensive study on rural health care.
 - MLA Hanson’s review revealed that the some issues raised in 2015 are still same today.
 - He has received letters from a number of municipalities with their health care concerns.
 - As an MLA, he is working on reviewing the interview process for post-secondary schools as it is geared toward urban students, which makes it difficult for rural students to get accepted.
- A brief Q&A session followed the NADC Chair’s update including questions related to the Rural Health Review report completed previously by MLA Starkey several years ago.

It was **MOVED** by Terry Ungarian **THAT** NADC Chair, MLA Hanson be sent a letter of thanks [including outstanding questions].

CARRIED

9. Attending Northern MLA Updates

Presenter: Tracy Allard, MLA for Grande Prairie

- ID 349 was finalized before Christmas. An issue for more than 12 years have been settled.
- COVID-19

- Has asked the government to provide data in real time to help make decisions at the municipal level of governance and that areas effected be a part of the solution. Has also asked to bring forward criteria for each stage of opening, rather than categories and complicated rules.
- Health Care
 - MLA Hanson answered that.
- Site C Dam
 - MLA Loewen will respond.
- NADC
 - The northern strategy plan will set up the north to be highlighted for their contributions made to Alberta and will attract infrastructure dollars.
- Victim Services
 - Was not on the call to hear the feedback, but has seen the effects of crime on impacted victims from closely and am concerned about this issue. I could be provided with the concerns and will be happy to take up that cause on behalf of NAEL as an elected official.

Presenter: Dan Williams, MLA for Peace River

- Site C Dam
 - Committed to getting NAEL a briefing and make sure that there is a response from the Minister's office.
- Victim Services
 - MLA Allard committed to that

Presenter: Todd Loewen, MLA for Central Peace-Notley

- Flood Mitigation Trailer
 - Has put out a call to Municipal Affairs.
- Victim Services
 - MLA Allard is committed
- Site C Dam
 - No information
- Health Care
 - It is time to see some action and things actually changing, rather than continuing to talk about the shortage of physicians in rural Alberta.
- Unpaid Taxes
 - It is a big concern and MLA Loewen has been trying to get another meeting with Municipal Affairs Minister.
- COVID-19 and Economy
 - The economic crisis and COVID-19 have put us in a very difficult spot, but some silver linings are being seen as the price of some farm and agricultural commodities are rising and

vaccination rates are increasing. Will continue to work with northern elected leaders and our government advocating for the north and the region.

Presenter: Pat Rehn, MLA for Lesser Slave Lake

- Food Mitigation Trailer
 - Supports a flood mitigation trailer in the north and it should be obtained in a timely manner.
- Health Care
 - Has talked to many people in the area who are frustrated with health care.

A brief Q&A session followed after the attending MLAs' updates. The discussions included the followings:

- The COVID-19
 - Active case numbers are declining provincially, but they are increasing in northern region. There is a need to be cautious.
- Completion of the new Grande Prairie Regional Hospital
 - It is a 6 to 9 month commissioning process. All equipment and every system need to be tested. Due to COVID-19, impacts on deliveries delay and human resources occurred. Resources have been diverted to COVID-19 response.

It was **MOVED** by Donna Buchinski **THAT** MLAs Allard, Williams, Rehn, and Loewen be sent a letter of thanks [including outstanding questions].

CARRIED

10. Regional Updates/Standing Items

Chair Jim Rennie suggested that the items 10.1 – 10.4 be discussed in the next meeting due to time constraint.

11. Next meeting

- Next NAEL virtual meeting was proposed for 1:00 – 3:00 PM on Friday, June 11, 2021.

It was **MOVED** by Carolyn Kolebaba **THAT** the next NAEL meeting be virtually held on June 11, 2021 from 1:00PM – 3:00PM.

CARRIED

12. Adjournment

It was **MOVED** by Myrna Lanctot **THAT** the NAEL meeting be adjourned at 3:00PM.

CARRIED

David Conway
Community Relations Manager
Site C Project
BC Hydro
3333 – 22nd Avenue
Prince George, BC, V2N 1B4

Dear Mr. Conway,

The Site C dam project was discussed once again by the Council for the County of Northern Lights at their regular meeting of June 22, 2021. At that time it was noted that while you had provided the information items requested at the June 8th council meeting, Council understood the full unredacted Milburn report, and the full unredacted France and Hoeg report would be provided.

The Milburn report that was made public was apparently a condensed version of the actual report that explored reasons for the multi billion dollar cost overruns and construction problems at the site. The report which you provided was a more complete version, however 12 complete sections and 296 section pages of the appendix were redacted – basically all of it.

The unredacted France and Hoeg technical report was not included in the link, and there were no Technical Advisory Reports for 2021 – and I believe you stated on June 8th that you were not certain of the availability of those reports. What you sent were minutes of the Technical Advisory Board without any attendees information. You also indicated there was no safety plan specific to Site C yet, however you were to provide the plan for the WAC Bennet dam.

Our Council is still very concerned with the secrecy surrounding this project, particularly the statement in the France and Hoeg report summary which states “The geotechnical investigations for the project did not include the portion of the earth fill dam foundation beneath the riverbed as it was not considered safe to use barge mounted equipment due to river currents.” It’s confirmed again further on: “geotechnical investigations were limited to areas outside of the riverbed”. So this tells us a multi billion dollar project was started without knowing what was being built upon, until roughly 6 billion was spent and the river was diverted because the process of gathering that information was “not considered safe”.

...2

David Conway
June 23, 2021
Page 2

As one of many municipalities located along the Peace river, we are extremely concerned with the safety of this project, and with the ongoing lack of communication, not only from BC Hydro, but from both the Alberta and BC government.

On behalf of the Council, I once again request the information promised previously, and for ongoing communications with respect to the construction and future safety plans for this project.

Thank you.

WE ARE ALL **STARS**[®]

Dear STARS Municipal Supporter,

The Government of Alberta announced the release of a report Tuesday regarding helicopter emergency service in the province, and I wanted to ensure you had information about what this report means for **STARS**.

We are honoured that the province has recognized the value of the specialized critical care that **STARS** provides patients. Building on our legacy of service since 1985, we will continue to be there for patients across Alberta. We look forward to working with Alberta Health Services on the next steps in responding to the report's recommendations.

One of the recommendations of the report was that the provincial government should provide 50 per cent of our yearly funding, up from the 23 per cent we are currently receiving.

Though we welcome this recommendation, it's important for you to know that it remains only a recommendation, and has not been implemented at this point.

STARS simply could not exist without your support. Whether it's through our lottery, fundraising events, monthly giving or community investment contributions, you fly along with us on every mission. You help ensure we can be there for the next patient who needs the highest level of critical care transport available in Alberta.

To you and all the donors who have supported us in the past, thank you. Please know, your support of **STARS** remains critical today, and will remain so even if our funding mix evolves.

If you have any questions about this announcement, please don't hesitate to reply to this email. I will ensure we follow up with you directly.

On behalf of everyone at **STARS**, thank you for entrusting us to serve you and your loved ones.

Sincerely,

A handwritten signature in black ink that reads "Andrea Roberts". The signature is written in a cursive, flowing style.

Mackenzie Applied Research Association
5901 River Road, P. O. Box 646
Fort Vermilion, Alberta T0H 1N0

July 8, 2021

The Reeve and the Council
4511- 46 Avenue
Box 640
Fort Vermilion, AB T0H 1N0

Dear Mr. Josh Knelsen,

Invitation to the Commissioning of the Agronomy Center in Fort Vermilion

Mackenzie Applied Research Association (MARA) invites you to the commissioning of the Agronomy Center in Fort Vermilion. We would like you to give a speech on “**the importance of agriculture investment in the county**” Your thought would enable the industry players and stakeholders to gain knowledge from your expertise and experience to boost research and investment of the Ag sector in north Peace.

The commissioning of the Agronomy Center is scheduled for Wednesday, August 4, 2021, at 9 am in Fort Vermilion. We are expecting about 100 to 120-grain farmers, Scientists, and stakeholders in the Ag Sector.

MARA received \$ 300,000 from the Western Grain Research Foundation, Saskatoon, SK to build the Agronomy Center to boost agronomy and soil health research and knowledge transfer to local farmers through demonstrations and extension events. This would potentially lead to the emergence of local appropriate technical innovations, increase income, and impact livelihood.

We look forward to the prospect of you speaking at the commissioning of the Agronomy Center.

Sincerely,

Greg Newman, MARA's Board Chair
