

We, Bennie and Jeannie Gerbrandt have done research on why there is a double road allowance on the road going North South of NE 34 105 15 W5.

In the early 80's the road was built to far East by mistake, not on the edge of the Quarter. Several years later Willy Wiebe moved in to the next Quarter, South, and the road had to be extended. They realized the road had to be moved west 20 to 30 meters, for it had not been built on the edge of the Quarter. They moved the road and kept the old road allowance.

This land this road was built on was sold for a dollar by Ed and Helena Zacharias in the early 80's. Right now our front yard and garden is on the old road allowance.

We feel we should not be responsible for paying the surveying fees, as it was not the owners mistake as to where the road was built in the first place.

Signed, Bennie Gerbrandt
